# University of Calgary Arts and Science Honours Academy ASHA321, *Representation* Fall, 2018

Instructor:	Dr. Jenny Godley
Office:	SS922
<b>Office Hours:</b>	T,Th 14:00-15:00, or by appt.
E-mail:	jgodley@ucalgary.ca*

**Class Hours**: T, Th 9:30-10:45 **Class Location:** TI STUDIO A

### **Emergency evacuation:**

In the case of fire or other emergency evacuation of this classroom, please proceed to the assembly point in Mac Hall North Courtyard.

\* Please use email for administrative concerns only. Substantive issues should be addressed in person, either in class, during office hours, or during an appointment time.

NOTE: this course outline is subject to revision. All changes will be announced in class. *Last revised 22 August, 2018* 

### **Overview:**

This is the required second-year course for members of the Arts and Science Honours Academy at the University of Calgary. This course will examine how quantitative social scientists use data to represent and study the social world. First, you will be introduced to a range of theoretical models proposed by social scientists from the fields of economics, political science, psychology and sociology to understand social inequality. Next, you will be introduced to a range of research methods used by quantitative social scientists to study social inequality empirically. We will critically assess the predominance of quantitative approaches in print, broadcast and social media. You will learn to think critically about research design, and the collection, availability, analysis and presentation of quantitative social scientists so often use to represent the social world, and how the data is then presented to the public through various media outlets. Over the course of the semester, you will conduct your own quantitative research project on an issue of social inequality of your choice.

## Course Objectives:

- 1. To introduce you to theories of social inequality from various social science fields, including economics, political science, psychology and sociology.
- 2. To introduce you to research methods used in economics, political science, psychology and sociology.
- 3. To introduce you to quantitative social science research design, and critically assess the predominance of quantitative methods.
- 4. To introduce you to quantitative social science data collection and analysis techniques.
- 5. To enable you to conduct your own mini-research project on a topic of your choice, including writing a literature review, choosing a dataset, conducting data analysis, and presenting your findings.
- 6. To illustrate and critique uses of available social science data, as presented through various media outlets.

# Text:

*The Data Game: Controversies in Social Science Statistics*. (Fourth Edition). (2015). By Mark H. Maier and Jennifer Imazeki. (abbreviated as M&I in course outline).

\*\* Available for purchase at the U of C bookstore.

Other assigned readings are listed in the course calendar (below), and are available on the course site on D2L. At the instructor's discretion, additional readings may be assigned throughout the semester. These will be announced in class, and will be made available on the course site on D2L.

### **Requirements**:

A. <u>Reading</u>:

Readings are assigned for each day of class. Please come to class every day having read the materials. Bring any questions or comments you have about the readings with you to share with your classmates. Please bring your textbooks and copies of the readings to class, as we will refer to them often.

### B. <u>Research Project</u>:

During the semester, you will be conducting a quantitative social science research project on a topic of your choice. The project will be due in pieces throughout the semester, as outlined below:

- a. Research Interests one pager (5%)
- b. Literature Review part 1 (15%)
- c. Literature Review part 2 (20%)
- d. Data set choice / variables (10%)

DUE: 18 September 11 October 25 October 1 November

Analysis plan (5%)
Initial Results (10%)
Presentation (10%)
Final paper (25%)

8 November 27 November 29 Nov – 6 Dec. 14 December

NOTE: All assignments are due at the beginning of class on the due date. All assignments will receive a grade reduction of 10% for each day past the deadline. The 10% grade reduction per day also applies to weekend days and holidays. If you hand in your assignment more than FIFTEEN MINUTES past the time it is due, it will be considered one day late.

#### Grades:

Your final grade will be computed as follow:

- Research Interests	5%
- Literature Review – part 1	15%
- Literature Review – part 2	20%
- Data Set / Variables	10%
- Analysis Plan	5%
- Initial Results	10%
- Presentation	10%
- Final Paper	25%

I will use the following scale to convert percentage grades to letter grades for this class.

A + = 95 - 100	A = 90-94	A- = 85-89
B + = 80-84	B = 75-79	B- = 70-74
C + = 65-69	C = 60-64	C- = 55-59
D + = 50-54	D = 45-49	
F = below 45		

The following description of letter grades comes from the University of Calgary Calendar.

- An A indicates superior performance, showing comprehensive understanding of the subject matter.
- A B indicates clearly above average performance, with knowledge of the subject matter generally complete.
- A C indicates satisfactory performance, with a basic understanding of the subject matter.
- A D indicates marginal performance and generally insufficient preparation for subsequent courses in the same subject.
- An F indicates unsatisfactory performance, or failure to meet course requirements.

### Policies:

- A. You are responsible for all the material covered in the textbook, in supplemental readings, and during lectures
- B. In the event that you have to miss class, you are responsible for getting the lecture notes from another student in the class.
- C. I will not distribute my personal notes to students under any circumstances.
- D. All submitted work must be YOUR OWN INDIVIDUAL WORK. It is your responsibility to make sure you understand the definition of plagiarism, and that you avoid submitting any work which could be considered plagiarized. Students are advised to consult the University of Calgary Calendar, which presents a Statement of Intellectual Honesty and definitions and penalties associated with plagiarism, cheating, and other academic misconduct. In particular, please note the following statement on penalties for academic misconduct: (http://www.ucalgary.ca/pubs/calendar/current/k.html)
- E. Cell phones, pagers, blackberries, surfing the internet, checking email, and listening to music are disruptive to other students. **No electronic devices** are allowed during class, with the exception of using a computer to take notes, conduct statistical analysis, or complete assignments. If you are using electronic devices for any other reason during class or lab, you will be asked to leave the classroom.
- F. There are no re-writes on any assignments in this class, and no extra credit work will be given.
- G. If you expect to have trouble meeting *any* of the class deadlines, please make sure to discuss your concerns with me *before* the deadline.
- H. If you wish to discuss any grades in the class, you must meet with me IN PERSON within two weeks of the date the assignment is returned, either during office hours or during an appointment time. I will not discuss grades over email.
- I. The U of C Statement on Principles of Conduct, reproduced in the University of Calgary Calendar (<u>http://www.ucalgary.ca/pubs/calendar/current/j-2.html</u>), applies to all work in this class. Please familiarize yourself with this statement.
- J. Ethical Research: Students are advised that any research with human subjects-including any interviewing (even with friends and family), opinion polling, or unobtrusive observation--must have the approval of the Faculty of Arts Ethics Committee. In completing course requirements, students must not undertake any human subjects research without discussing their plans with the instructor, to determine if ethics approval is required.

- K. Safewalk: The University of Calgary provides a "safe walk" service to any location on Campus, including the LRT, parking lots, bus zones, and campus housing. For Campus Security/Safewalk call 220-5333. Campus Security can also be contacted from any of the "Help" phones located around Campus.
- L. Academic Accommodation: Students seeking an accommodation based on disability or medical concerns should contact Student Accessibility Services. SAS will process the request and issue letters of accommodation to instructors. For additional information on support services and accommodations for students with disabilities, visit <u>www.ucalgary.ca/access/</u>. Students who require an accommodation in relation to their coursework based on a protected ground other than disability should communicate this need in writing to their Instructor. The full policy on Student Accommodations is available

at http://www.ucalgary.ca/policies/files/policies/student-accommodation-policy\_0.pdf
