

DEPARTMENT OF BIOLOGICAL SCIENCES COURSE OUTLINE

Lecture Section(s)	L01	MWF	14:00	EDC 057	Fall 2015
Instructor(s):	Dr. L. G Dr. G. \	lieg /oordouw	BI 175A BI 486	210-7207 220-6388	lmgieg@ucalgary.ca voordouw@ucalgary.ca

Desire 2 Learn (D2L): CMME	3 443 L01	- (Fall 2015) - Microbia	al Physiology
Biological Sciences Department	BI 186	403-220-3140	biosci@ucalgary.ca

CMMB 443 - MICROBIAL PHYSIOLOGY

1. Course:

- 2. Prerequisites: CMMB 343 and BCEM 393 See section 3.5.C in the Faculty of Science section of the online Calendar www.ucalgary.ca/pubs/calendar/current/sc-3-5.html
- 3. Grading: The University policy on grading and related matters is described sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course the following weights will be used:

Midterm Exam 1 (In class October 2)	19 %
Midterm Exam 2 (In class October 23)	19 %
Quiz (In class November 16)	10 %
Lab Reports	24 %
* Final Exam	28 %

* There will be a final exam scheduled by the Registrar's office

Each piece of work (assignment, laboratory report, midterm test or final examination) submitted by the student will be assigned a percentage score. The student's average percentage score for the various components listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade, bearing in mind that an F grade will result if the student does not pass the overall lab OR the overall lecture component.

- 4. Missed Components of Term Work: The regulations of the Faculty of Science pertaining to this matter are found in the Faculty of Science area of the Calendar in Section 3.6. It is the student's responsibility to familiarize himself/herself with these regulations. See also Section E.6 of the University Calendar
- REGULARLY SCHEDULED CLASSES HAVE PRECEDENCE OVER ANY OUT-OF-CLASS-TIME-ACTIVITY. If you have a clash
 with this out-of-class-time-activity, please inform your instructor as soon as possible so that alternative arrangements may be made for
 you.
- 6. Course Materials: <u>Recommended text:</u> White, D.; Drummond, J.; Fuqua, C. 2012. <u>The Physiology and Biochemistry of Prokaryotes</u>, Oxford University Press – New York, 4th Edition.
 - Any other suggested readings will be available on-line through Desire to Learn (D2L) or through given links.
- 7. Examination Policy: No electronic or written aids (eg. cell phones, tablets, computers, PDAs, notes, textbooks) will be allowed during writing of any exams. Non-programmable calculators will be permitted to answer quantitative questions on exams, if applicable, and permission to do this will be clearly indicated on the examination paper. Students should also read the Calendar, Section G, on Examinations.
- 8. Writing across the curriculum statement: e.g. "In this course, the quality of the student's writing in laboratory reports will be a factor in the evaluation of those reports. See also <u>Section E.2</u> of the University Calendar.

9. ETHICS IN THE BIOLOGICAL SCIENCES

Studies in the Biological Sciences involve the use of living and dead organisms. Students taking laboratory- and field-based courses in these disciplines can expect involvement with and experimentation on such materials. Students perform dissections on dead or preserved organisms in some courses. In particular courses, students experiment on living organisms, their tissues, cells, or molecules. Sometimes field work requires students to collect a variety of living materials by many methods, including humane trapping.

All work on humans and other animals conforms to the Helsinki Declaration and to the regulations of the Canadian Council on Animal Care. The Department strives for the highest ethical standards consistent with stewardship of the environment for organisms whose use is not governed by statutory authority. Individuals contemplating taking courses or majoring in one of the fields of study offered by the Department of Biological Sciences should ensure that they have fully considered these issues before enrolling. Students are advised to discuss any concern they might have with the Undergraduate Program Director of the Department.

10. OTHER IMPORTANT INFORMATION FOR STUDENTS:

- (a) Academic Misconduct: (cheating, plagiarism, or any other form) is a very serious offence that will be dealt with rigorously in all cases. A single offence may lead to disciplinary probation or suspension or expulsion. The Faculty of Science follows a zero tolerance policy regarding dishonesty. Please read the sections of the University Calendar under Section K. Student Misconduct to inform yourself of definitions, processes and penalties
- (b) Assembly Points: In case of emergency during class time, be sure to FAMILIARIZE YOURSELF with the information on assembly points.
- (C) Student Accommodations: Students needing an Accommodation because of a Disability or medical condition should contact Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities available at <u>http://www.ucalgary.ca/policies/files/policies/procedure-for-accommodations-for-students-with-disabilities_0.pdf</u>.

Students needing an Accommodation in relation to their coursework or to fulfil requirements for a graduate degree, based on a Protected Ground other than Disability, should communicate this need, preferably in writing, to the Associate Head of Biological Sciences, Dr. H. Addy by email addy@ucalgary.ca or phone 403 220-3140.

- (d) Safewalk: Campus Security will escort individuals day or night (http://www.ucalgary.ca/security/safewalk/). Call 220-5333 for assistance. Use any campus phone, emergency phone or the yellow phones located at most parking lot pay booths.
- (e) Freedom of Information and Privacy: This course is conducted in accordance with the Freedom of Information and Protection of Privacy Act (FOIPP). As one consequence, students should identify themselves on all written work by placing their name on the front page and their ID number on each subsequent page. For more information see also
- (f) http://www.ucalgary.ca/secretariat/privacy.
- (g) Student Union Information: VP Academic Phone: 403 220-3911 Email: <u>suvpaca@ucalgary.ca</u> SU Faculty Rep. Phone: 403 220-3913 Email: <u>science1@su.ucalgary.ca</u>, <u>science2@su.ucalgary.ca</u> and <u>science3@su.ucalgary.ca</u>; Student Ombuds Office: 403 220-6420 Email: <u>ombuds@ucalgary.ca</u>; <u>http://ucalgary.ca/provost/students/ombuds</u>
- (h) Internet and Electronic Device Information: You can assume that in all classes that you attend, your cell phone should be turned off unless instructed otherwise. Also, communication with other individuals, via laptop computers, Blackberries or other devices connectable to the Internet is not allowed in class time unless specifically permitted by the instructor. If you violate this policy you may be asked to leave the classroom. Repeated abuse may result in a charge of misconduct.
- (i) At the University of Calgary, feedback provided by students through the Universal Student Ratings of Instruction (USRI) survey provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses (www.ucalgary.ca/usri). Your responses make a difference please participate in USRI Surveys.

UNIVERSITY OF CALGARY DEPARTMENT OF BIOLOGY COURSE OUTLINE

CMMB 443 MICROBIAL PHYSIOLOGY

TERM:		Fall 2015			SECTION NO.: 01
PREREQUISITE: CMMB 343 and BCEM 393.					
Students may not register in a course unle	ss they ha	ve a grade of at lea	ast C- in each prerec	quisite course.	
COURSE & LAB COORDINATOR:	Dr. L. G	Dr. L. Gieg			
LECTURERS:	Dr. L. G Dr. G. V	ieg /oordouw	BI 175A BI 486	210-7207 220-6388	lmgieg@ucalgary.ca voordouw@ucalgary.ca
LECTURES:	MWF		14:00	EDC 057	
LABS:	Т		0900/1200; 1200/1	500	BI 132
TEXT:	White, I <u>Prokary</u> Any oth	otes, Oxford Unive	Fuqua, C. 2012. <u>The</u> ersity Press – New Y dings will be availab	ork, 4th Edition.	
MARK DISTRIBUTION:	А. В.	Midterm Exam 2	<u>inal Grade</u> (50 min, in class, O (50 min., in class, C n class, November 1	October 23)	19 % 19 % 10 % 24 % 28 %
			-hour final exam sch	eduled by the R	egistrar's Office.

*Final exam will be on material covered in Lectures 16-33, with an emphasis on Lectures 24-33

The focus is structure and function of prokaryotic cells. Topics include cell envelope structure, cell division, transport and secretion, signal transduction, differentiation and development, bacterial growth and energetics, and the diversity of metabolic pathways in Bacteria and Archaea. The laboratory introduces analytical techniques commonly used in bacterial physiology, and some useful biochemical assays.

Tentative schedule of topics, CMMB 443

1. Sept 9	LG	Cell envelope I: cytoplasmic membrane, cell wall, peptidoglycan
·	LG	Cell envelope II: teichoic acids, S-layers, capsules
3. Sept 14	LG	Cell envelope III: Gram-ve outer membrane
4. Sept 16	LG	Cell envelope IV: archaea, cell shape
5. Sept 18	LG	Cell division
6. Sept 21	LG	Signal transduction/2-component regulatory systems
7. Sept 23	LG	Sporulation I: sporulation and spore structure
8. Sept 25	LG	Sporulation II: regulation
9. Sept 28	LG	Cell envelope function I: protein secretion
10. Sept 30	LG	Cell envelope function II: protein secretion and pili
OCT 2		MIDTERM 1, IN CLASS, LECTURES 1-8
0012		
	LG	Cell envelope function III: transport
		Chemotaxis: motility, flagella, and regulation
13. Oct 9	LG	Quorum sensing & biofilms
Oct 12		Thanksgiving, no classes
14. Oct 14	LG	Adaptive responses: stringent response, heat shock
15. Oct 16	LG	Adaptive responses: oxidative stress
16. Oct 19	GV	Microbial growth, monitoring methods
17. Oct 21	GV	Microbial growth: Monod equation, growth yield
OCT 23		MIDTERM 2, IN CLASS, LECTURES 9-15
OCT 23 18. Oct 26	GV	MIDTERM 2, IN CLASS, LECTURES 9-15 Microbial Growth: Y _{ATP} , maintenance, chemostat
	GV GV	
18. Oct 26		Microbial Growth: Y _{ATP} , maintenance, chemostat
18. Oct 26 19. Oct 28	GV	Microbial Growth: Y _{ATP} , maintenance, chemostat Microbial Growth
18. Oct 26 19. Oct 28 20. Oct 30	GV GV	Microbial Growth: Y_{ATP} , maintenance, chemostat Microbial Growth Bioenergetics: ΔpH and $\Delta \Psi$ in bacteria
18. Oct 26 19. Oct 28 20. Oct 30 21. Nov 2	GV GV GV	Microbial Growth: Y_{ATP} , maintenance, chemostat Microbial Growth Bioenergetics: ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: measurement of ΔpH and $\Delta \Psi$ in bacteria
18. Oct 26 19. Oct 28 20. Oct 30 21. Nov 2 22. Nov 4	GV GV GV GV	Microbial Growth: Y_{ATP} , maintenance, chemostat Microbial Growth Bioenergetics: ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: measurement of ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: ways to generate Δp in bacteria
18. Oct 26 19. Oct 28 20. Oct 30 21. Nov 2 22. Nov 4 23. Nov 6	GV GV GV GV GV	Microbial Growth: Y_{ATP} , maintenance, chemostat Microbial Growth Bioenergetics: ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: measurement of ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: ways to generate Δp in bacteria Electron transport: aerobic and anaerobic bacterial chains
18. Oct 26 19. Oct 28 20. Oct 30 21. Nov 2 22. Nov 4 23. Nov 6 24. Nov 9	GV GV GV GV GV	Microbial Growth: Y_{ATP} , maintenance, chemostat Microbial Growth Bioenergetics: ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: measurement of ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: ways to generate Δp in bacteria Electron transport: aerobic and anaerobic bacterial chains Electron transport: coupling sites and examples
18. Oct 26 19. Oct 28 20. Oct 30 21. Nov 2 22. Nov 4 23. Nov 6 24. Nov 9 <i>Nov 11, 13</i>	GV GV GV GV GV	Microbial Growth: Y_{ATP} , maintenance, chemostat Microbial Growth Bioenergetics: ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: measurement of ΔpH and $\Delta \Psi$ in bacteria Bioenergetics: ways to generate Δp in bacteria Electron transport: aerobic and anaerobic bacterial chains Electron transport: coupling sites and examples Reading Days, no lecture
18. Oct 26 19. Oct 28 20. Oct 30 21. Nov 2 22. Nov 4 23. Nov 6 24. CMMB 443, Fall 2015

Mark Breakdown

Cut-Off	Letter Grade
> 90.0 %	A +
85.0	А
80.0	A –
77.0	B+
73.0	В
70.0	B –
67.0	C +
63.0	С
60.0	C –
55.0	D +
50.0	D
< 50.0 %	F

Tentative LAB Schedule for CMMB 443, Fall 2015 (subject to change)

Lab BI 132	Lab Section 01	9:00 -12:00	
	Lab Section 02	12:00 - 15:00	

There is no published lab manual to buy. Individual labs and associated material will be posted to D2L. THERE IS NO LAB IN THE FIRST WEEK OF CLASSES.

Sept. 15 Sept. 22	Lab 1: Different methods for estimating protein concentrationLab 1: Different methods for estimating protein concentration (if needed)
Sept. 29	No lab (midterm this week)
Oct. 6 Oct. 13	Lab 2: Sporulation Lab 2: Sporulation
Oct. 20	No lab (midterm this week)
Oct. 27 Nov. 3	Lab 3: Catabolite repression of glycerokinase in <i>E. coli</i> Lab 4: Chemotaxis
Nov. 10	No lab (reading days this week)
Nov. 17 Nov. 24	Lab 5: Bacteriocins and quorum sensing Lab 6: Sulfate reduction
