Other Knowledge Exchange and Quality Improvement Activities

- **Alberta Provincial Dementia Strategy.** Co-Chair of the Research and Innovation Subcommittee of a provincial group, which included a variety of key stakeholders, tasked with helping to develop the Alberta Dementia Strategy for Alberta Health.
- **AHS Seniors Health Strategic Clinical Network. Scientific Director (2012-15).** Responsible for the SCN research strategy and for championing a broader provincial health research and quality improvement agenda for seniors within Alberta. The goal of the SCN is to bring together researchers, clinicians, health administrators, policy makers, patients and the public, with the aim of working together to improve the care provided to older Albertans through the implementation of evidence into practice. My role also included developing a researcher network of over 90 researchers across Alberta to engage in SCN activities.
- **AHS Calgary Zone Elder Friendly Care Initiative.** Lead of an initiative to support and improve care provided to older patients. This involved the formation of site and zone committees that currently work to implement elder friendly practices across the Calgary zone. This has included the development and implementation of three evidence-informed key clinical practice strategies within Calgary-area hospitals. This project was supported by \$15,000 in project funding from AHS Calgary Zone Seniors Health and \$45,000 peer-reviewed grant from AHS Calgary Zone Medical Affairs QI grant. Results of this initial initiative were presented at the 2015 Alberta QI Summit and won Top 3 poster. We then received \$45,000 in peer-reviewed QI grant funding from AHS Calgary Zone Medical Affairs to implement MOVE (Mobilization of Vulnerable Elders) into Calgary area hospitals. I received a University of Calgary PEAK Scholar nomination in 2016 for leading the Elder Friendly Initiative in Calgary and for helping to spread it across the province.
- **Provincial Hip Fracture Clinical Care Pathway, AHS Bone and Joint Strategic Clinical Network Trauma Working Group.** Member of the working group that developed, implemented and evaluated an evidence-informed acute care provincial clinical care pathway in an effort to decrease care gaps and provide standardized care to hip fracture patients in Alberta. This work has resulted in improved patient and system outcomes.
- **Resident-driven Project Targeted at Decreasing ED-LOS for Department of Medicine Patients.** Faculty Lead on a project supported by AHS Calgary Zone Medical Affairs aimed at working with Internal Medicine Residents to decrease the amount of time it takes to admit a medical patient from the emergency department. This project was supported by \$28,000 in project funding from AHS Calgary zone Medical Affairs. The findings of this project were presented at several local and national meetings, and a manuscript was published.
