

UNIVERSITY OF CALGARY
FACULTY OF SCIENCE
DEPARTMENT OF COMPUTER SCIENCE
COURSE OUTLINE

1. **Course:** CPSC 233: Introduction to Computer Science for Computer Science Majors II

Lecture Sections:

L01, MWF 10:00-10:50, SA 106, Mea Wang, ICT 740, 220-6785, meawang@ucalgary.ca

Office Hours: M 11:00-12:00 W 12:00-13:00

Course Website: D2L

Computer Science Department Office, ICT 602, 220-6015, cpsc@cpsc.ucalgary.ca

2. **Prerequisites:** CPSC 231

(<http://www.ucalgary.ca/pubs/calendar/current/computer-science.html#3620>)

3. **Grading:** The University policy on grading and related matters is described in sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course the following weights will be used:

Exercises	20%
Project	25%
Midterm Exam	25%
<i>(In-Class Friday October 28th, 2016)</i>	
Final Exam	30%

This course **will** have a Registrar's Scheduled Final Exam.

Special Regulations affecting the Final Grade: Each of the above components will be given a percentage grade. The final grade will be calculated using the percentage grade awarded for each course component weighted by the percentage given above and then reconverted to a final letter grade using the attached conversion table. The instructor reserves the right to change the grade conversion chart if the instructor feels it is necessary to represent student achievement more fairly. **In order to obtain a final grade of C- or better, and to pass the class, a student must achieve a weighted average of C- or better on the midterm and final exams.**

4. **Missed Components of Term Work:** The regulations of the Faculty of Science pertaining to this matter are found in the Faculty of Science area of the Calendar. Section 3.6. It is the student's responsibility to familiarize themselves with these regulations. See also Section E.6 of the University calendar.
5. **Scheduled Out-of-Class Activities:** REGULARLY SCHEDULED CLASSES HAVE PRECEDENCE OVER ANY OUT-OF-CLASS-TIME ACTIVITY. If you have a clash with this out-of-class activity, please inform your instructor as soon as possible so that alternative assignments can be arranged.

6. **Course Materials:**

Java: An Introduction to Problem Solving, 6th Edition, Walter Savitch, *Pearson Education* (Required)

Online Course Components:

See D2L

7. **Examination Policy:** Students are expected to provide proof of identity at any examination or test conducted in this course and to sign a class list if required. Closed book. No aids permitted. Students should also read the Calendar, Section G, on examinations.
8. **Approved Mandatory and Optional Course Supplemental Fees:** None.

9. **Writing across the Curriculum Statement:** In this course, the quality of the student's writing in the weighted components of the course will be a factor in the evaluation of these components. See also Section E.2 of the University Calendar.
10. **Human Studies Statement:** Students will be expected to participate as subjects or participants in projects. See also Section E.5 of the University Calendar.
11. **OTHER IMPORTANT INFORMATION FOR STUDENTS:**
- a) **Misconduct:** Academic misconduct (cheating, plagiarism, or any other form) is a very serious offense that will be dealt with rigorously in all cases. A single offence may lead to disciplinary probation or suspension or expulsion. The Faculty of Science follows a zero tolerance policy regarding dishonesty. Please read the sections of the University Calendar under Section K, Student Misconduct to inform yourself of definitions, processes and penalties.
 - b) **Assembly Points:** In case of emergency during class time, be sure to FAMILIARIZE YOURSELF with the information on assembly points which can be found in each classroom and building.
 - c) **Student Accommodations:** Students needing an Accommodation because of a Disability or medical condition should contact Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities available at http://www.ucalgary.ca/policies/files/policies/procedure-for-accommodations-for-students-with-disabilities_0.pdf. Students needing an Accommodation in relation to their coursework or to fulfil requirements for a graduate degree, based on a Protected Ground other than Disability, should communicate this need, preferably in writing, to the Associate Head of Computer Science.
 - d) **Safewalk:** Campus Security will escort individuals day or night (<http://www.ucalgary.ca/security/safewalk/>). Call 403-220-5333 for assistance. Use any campus phone, emergency phone or the yellow phones located at most parking lot pay booths.
 - e) **Freedom of Information and Privacy:** This course is conducted in accordance with the Freedom of Information and Protection of Privacy Act (FOIPP). As one consequence, students should identify themselves on all written work by placing their name on the front page and their ID number on each subsequent page. For more information see also <http://www.ucalgary.ca/secretariat/privacy>
 - f) **Student Union Information:** VP Academic (403) 220-3911 suwpaca@ucalgary.ca SU Faculty Rep (403) 220-3913 science1@su.ucalgary.ca, science2@su.ucalgary.ca and science3@su.ucalgary.ca, Student Ombuds Office: (403) 220-6420 ombuds@ucalgary.ca, <http://ucalgary.ca/provost/students/ombuds>
 - g) **Internet and Electronic Device Information:** You can assume that in all classes that you attend your cell phone should be turned off unless instructed otherwise. All communications with other individuals via laptop computers, cell phones or other devices connectable to the internet in not allowed during class time unless specifically permitted by the instructor. If you violate this policy you may be asked to leave the classroom. Repeated abuse may result in a charge of misconduct.
 - h) **U.S.R.I.:** At the University of Calgary feedback provided by students through the Universal Student ratings of Instruction (USRI) survey provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses (www.ucalgary.ca/usri). Your responses make a difference – please participate in USRI surveys.

CPSC 233 Percentage to Letter Grade Conversion Table

A+	95-100
A	90-94.99
A-	85-89.99
B+	80-84.99
B	75-79.99
B-	70-74.99
C+	65-69.99
C	60-64.99
C-	55-59.99
D+	50-54.99
D	40-49.99
F	0-39.99

CPSC 233 Syllabus

Tentative Topics Covered:

- Introduction to Java Programming
- Introduction to Object-Oriented Programming
- Advanced Java
- Hierarchies
- Introduction to Graphical User Interface
- Exceptions and files
- Linked lists
- Design patterns and Java History
- Packages

Learning Outcomes:

By the end of the course: students will:

- By the end of this course, students should be able to design and implement a well-structured object-oriented program of moderate complexity that uses all features of the Java programming language.
- By the end of this course, students should be able to analyze the requirements for a small software system, create an object-oriented system design for it, and document the design using the conventions of the Unified Modeling Language (UML).
- By the end of this course, students should be able to explain the concepts of objects, classes, and class relationships as they apply to object-oriented programming.
- By the end of this course, students should be able to design and implement a multi-threaded GUI-based program that does file I/O using standard classes in the Java libraries.
