COURSE OUTLINE

1. Course: GLGY 555, Global Tectonics - Fall 2020

Lecture 01: TR 12:30 - 13:45 - Online

Instructor | Email | Phone | Office | Hours
--- | --- | --- | --- | ---
Dr Hersh Gilbert | hersh.gilbert@ucalgary.ca | 403 220-6446 | ES 150 | By Appointment

For a listing of all lab sections corresponding with this course, please see the following link:

http://contacts.ucalgary.ca/info/geos/courses/f20/GLGY555?destination=courses%2Ff20

Online Delivery Details:

This course is being offered online in real-time via scheduled meeting times, you are required to be online at the same time.

This class will have three primary means of delivering online course content.

1. Synchronous course delivery will be weekly through Zoom on Thursday afternoons from 12:30 to 13:45. These sessions will be recorded and posted to D2L. Recorded sessions can be viewed at any time once they are posted.

2. Short videos, exercises, and readings going over fundamentals of course topics will be posted to D2L weekly. These materials will be devoted to primers on data analysis, reviewing basic concepts, delving into details about topics introduced during the synchronous portion of the class, and professional skill development.

3. Synchronous discussion sections are scheduled weekly during the lab times on Friday afternoons from 15:30 to 16:50. The discussion sections will occur through Zoom. Each lab section will include a pre-lab quiz to be completed on D2L prior to the start of lab each week. The start of the lab discussion section at 15:30 is intended to provide time to complete the weekly quiz prior to the start of the lab section. These sessions will not be recorded.

Course Site:

D2L: GLGY 555 L01-(Fall 2020)-Global Tectonics

Note: Students must use their U of C account for all course correspondence.

2. Requisites:

See section 3.5.C in the Faculty of Science section of the online Calendar.

Prerequisite(s):
Geology 431; and Geology 493 or 491.

3. Grading:

The University policy on grading and related matters is described in F.1 and F.2 of the online University Calendar.

In determining the overall grade in the course the following weights will be used:

<table>
<thead>
<tr>
<th>Component(s)</th>
<th>Weighting %</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assignments and lab summaries</td>
<td>20</td>
<td></td>
</tr>
<tr>
<td>Quizzes (lab)</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>Participation in lab and discussion board</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>Oral midterm exam</td>
<td>20</td>
<td>Oct. 15th</td>
</tr>
<tr>
<td>Group topic presentation</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>Group class presentation</td>
<td>15</td>
<td>Dec. 4 &amp; 8</td>
</tr>
</tbody>
</table>

Each piece of work (reports, assignments, quizzes, midterm exam(s) or final examination) submitted by the student will be assigned a grade. The student’s grade for each component listed above will be combined with the
indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade.

The conversion between a percentage grade and letter grade is as follows.

<table>
<thead>
<tr>
<th>Minimum % Required</th>
<th>A+</th>
<th>A</th>
<th>A-</th>
<th>B+</th>
<th>B</th>
<th>B-</th>
<th>C+</th>
<th>C</th>
<th>C-</th>
<th>D+</th>
<th>D</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>95</td>
<td>90</td>
<td>87</td>
<td>84</td>
<td>80</td>
<td>77</td>
<td>74</td>
<td>70</td>
<td>67</td>
<td>63</td>
<td>57</td>
</tr>
</tbody>
</table>

Students will demonstrate their understanding of global tectonics and concepts through the course learning assessments, exams, laboratory assignments, and presentations.

Students need to successfully complete the lab, lecture, and project components of the course to get a passing grade. Successful completion of a component means obtaining >50% in the assessment parts associated with that component.

4. Missed Components Of Term Work:

The university has suspended the requirement for students to provide evidence for absences. Please do not attend medical clinics for medical notes or Commissioners for Oaths for statutory declarations.

In the event that a student legitimately fails to submit any online assessment on time (e.g. due to illness etc...), please contact the course coordinator, or the course instructor if this course does not have a coordinator to arrange for a re-adjustment of a submission date. Absences not reported within 48 hours will not be accommodated. If an excused absence is approved, then the percentage weight of the legitimately missed assignment could also be pro-rated among the components of the course.

5. Scheduled Out-of-Class Activities:

There are no scheduled out-of-class activities for this course.

6. Course Materials:

Required papers and readings will be posted to the class D2L site.

Optional Textbook:

Tectonics, by E. M. Moores and R. J. Twiss, Waveland; Offers background and review information to selected class topics - on reserve at UofC Libraries.

Global Tectonics, 3rd Edition by Philip Kearey, Keith Klepis, Frederick J. Vine, Wiley-Blackwell; This textbook will serve as a general reference for some but not all the topics covered in lectures.

In order to successfully engage in their learning experiences at the University of Calgary, students taking online, remote and blended courses are required to have reliable access to the following technology:

- A computer with a supported operating system, as well as the latest security, and malware updates;
- A current and updated web browser;
- Webcam/Camera (built-in or external);
- Microphone and speaker (built-in or external), or headset with microphone;
- Current antivirus and/or firewall software enabled;
- Stable internet connection.

For more information please refer to the UofC ELearning online website.

7. Examination Policy:

No aids are allowed on tests or examinations.

Students should also read the Calendar, Section G, on Examinations.

8. Approved Mandatory And Optional Course Supplemental Fees:

There are no mandatory or optional course supplemental fees for this course.

9. Writing Across The Curriculum Statement:

For all components of the course, in any written work, the quality of the student's writing (language, spelling, grammar, presentation etc.) can be a factor in the evaluation of the work. See also Section E.2 of the University Calendar.
10. **Human Studies Statement:**
Students will not participate as subjects or researchers in human studies.
See also Section E.5 of the University Calendar.

11. **Reappraisal Of Grades:**
A student wishing a reappraisal, should first attempt to review the graded work with the Course coordinator/instructor or department offering the course. Students with sufficient academic grounds may request a reappraisal. Non-academic grounds are not relevant for grade reappraisals. Students should be aware that the grade being reappraised may be raised, lowered or remain the same. See Section I.3 of the University Calendar.

   a. **Term Work:** The student should present their rationale as effectively and as fully as possible to the Course coordinator/instructor within ten business days of either being notified about the mark, or of the item's return to the class. If the student is not satisfied with the outcome, the student shall submit the Reappraisal of Graded Term work form to the department in which the course is offered within 2 business days of receiving the decision from the instructor. The Department will arrange for a reappraisal of the work within the next ten business days. The reappraisal will only be considered if the student provides a detailed rationale that outlines where and for what reason an error is suspected. See sections I.1 and I.2 of the University Calendar.

   b. **Final Exam:** The student shall submit the request to Enrolment Services. See Section I.3 of the University Calendar.

12. **Other Important Information For Students:**

   a. **Mental Health** The University of Calgary recognizes the pivotal role that student mental health plays in physical health, social connectedness and academic success, and aspires to create a caring and supportive campus community where individuals can freely talk about mental health and receive supports when needed. We encourage you to explore the mental health resources available throughout the university community, such as counselling, self-help resources, peer support or skills-building available through the SU Wellness Centre (Room 370, MacEwan Student Centre, Mental Health Services Website) and the Campus Mental Health Strategy website (Mental Health).

   b. **SU Wellness Center:** For more information, see www.ucalgary.ca/wellnesscentre or call 403-210-9355.

   c. **Sexual Violence:** The Sexual Violence Support Advocate, Carla Bertsch, can provide confidential support and information regarding sexual violence to all members of the university community. Carla can be reached by email (svsa@ucalgary.ca) or phone at 403-220-2208. The complete University of Calgary policy on sexual violence can be viewed at [https://www.ucalgary.ca/policies/files/policies/sexual-violence-policy.pdf](https://www.ucalgary.ca/policies/files/policies/sexual-violence-policy.pdf)

   d. **Misconduct:** Academic misconduct (cheating, plagiarism, or any other form) is a very serious offence that will be dealt with rigorously in all cases. A single offence may lead to disciplinary probation or suspension or expulsion. The Faculty of Science follows a zero tolerance policy regarding dishonesty. Please read the sections of the University Calendar under Section K, Student Misconduct to inform yourself of definitions, processes and penalties. Examples of academic misconduct may include: submitting or presenting work as if it were the student's own work when it is not; submitting or presenting work in one course which has also been submitted in another course without the instructor's permission; collaborating in whole or in part without prior agreement of the instructor; borrowing experimental values from others without the instructor's approval; falsification/ fabrication of experimental values in a report. These are only examples.

   e. **Academic Accommodation Policy:** Students needing an accommodation because of a disability or medical condition should contact Student Accessibility Services in accordance with the procedure for accommodations for students with disabilities available at procedure-for-accommodations-for-students-with-disabilities.pdf.

   Students needing an accommodation in relation to their coursework or to fulfill requirements for a graduate degree, based on a protected ground other than disability, should communicate this need, preferably in writing, to the Teaching Professor of the Department of Geoscience, Jennifer Cuthbertson by email cuthberj@ucalgary.ca or phone 403-220-4709. Religious accommodation requests relating to class, test or exam scheduling or absences must be submitted no later than 14 days prior to the date in question. See Section E.4 of the University Calendar.

   f. **Freedom of Information and Privacy:** This course is conducted in accordance with the Freedom of Information and Protection of Privacy Act (FOIPP). Students should identify themselves on all written work by placing their name on the front page and their ID number on each subsequent page. For more information, see Legal Services website.
g. Student Union Information: VP Academic, Phone: 403-220-3911 Email: suvpaca@ucalgary.ca. SU Faculty Rep., Phone: 403-220-3913 Email: sciencerep@su.ucalgary.ca. Student Ombudsman, Email: ombuds@ucalgary.ca.

h. Surveys: At the University of Calgary, feedback through the Universal Student Ratings of Instruction (USRI) survey and the Faculty of Science Teaching Feedback form provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses. Your responses make a difference - please participate in these surveys.

i. Copyright of Course Materials: All course materials (including those posted on the course D2L site, a course website, or used in any teaching activity such as (but not limited to) examinations, quizzes, assignments, laboratory manuals, lecture slides or lecture materials and other course notes) are protected by law. These materials are for the sole use of students registered in this course and must not be redistributed. Sharing these materials with anyone else would be a breach of the terms and conditions governing student access to D2L, as well as a violation of the copyright in these materials, and may be pursued as a case of student academic or non-academic misconduct, in addition to any other remedies available at law.

Course Outcomes:

- Apply basic principles of structural geology, geophysics and petrology to explain processes and products at diverse tectonic settings
- Evaluate methods for characterizing structure and tectonics of a region
- Develop an understanding of processes that controls and drives tectonics and deformation
- Review the role of plate tectonics as a framework for explaining processes at Earth's surface and interior
- Read, discuss and summarize scholarly articles
- Conduct a literature research project
- Communicate science through writing and oral presentation
