

COURSE OUTLINE

1. Course: MATH 271, Discrete Mathematics - Summer 2021

Lecture 01: MWF 10:00 - 11:50 - Online

Instructor Email Phone Office Hours

Dr Thi Dinh tndinh@ucalgary.ca 403 220-2214 MS 420 MWF 12:00 - 13:00

Online Delivery Details:

Some aspects of this course are being offered in real-time via scheduled meeting times. For those aspects you are required to be online at the same time.

To help ensure Zoom sessions are private, do not share the Zoom link or password with others, or on any social media platforms. Zoom links and passwords are only intended for students registered in the course. Zoom recordings and materials presented in Zoom, including any teaching materials, must not be shared, distributed or published without the instructor's permission.

This course has a registrar scheduled, synchronous final exam. The writing time is 2 hours + 50% buffer time.

Online Delivery Details:

Some aspects of this course are being offered in real-time via scheduled meeting times. For those aspects you are required to be online at the same time. To help ensure Zoom sessions are private, do not share the Zoom link or password with others,

or on any social media platforms. Zoom links and passwords are only intended for students registered in the course. Zoom

recordings and materials presented in Zoom, including any teaching materials, must not be shared, distributed or published without the instructor's permission. All course components will be delivered via D2L and Zoom.

Synchronous Lectures via Zoom (MATH 271 L01 Dr. T. Dinh)

MWF 10:00 - 11:50 Mountain Time

Attendance is not mandatory. All sessions will be recorded and made available via D2L with lecture notes also made available.

Zoom links and recordings available via **D2I** > **Communication** > **Zoom**

LABS: Live Drop-in Q & A and Problem-Solving with Teaching Assistants.

Mondays 3:00 - 3:50 PM Mountain Time.

Wednesdays 3:00 - 3:50 PM Mountain Time.

Labs provide students the opportunity to ask questions.

Teaching Assistants will also guide students through some problem solving activities.

Course Site: D2L: MATH 271 L01-(Winter 2021)-Discrete Mathematics

Note: Students must use their U of C account for all course correspondence.

Email Policy

All content and course-related questions should be posted to the D2L Discussion Boards. Questions will normally

2021-06-29 1 of 6

be answered within 36 hours (except on weekends and holidays).

Do not expect a response if you email your instructor with a content or course-related question.

Do not expect a response if an identical question has already been answered on D2L.

All questions of a personal nature (e.g. accommodations, missed assessments) should be directed to Dr. Thi Dinh (tndinh@ucalgary.ca). You can usually expect a response within 24 hours (except on weekends and holidays)

Course Site:

D2L: MATH 271 L01-(Summer 2021)-Discrete Mathematics

Note: Students must use their U of C account for all course correspondence.

2. Requisites:

See section 3.5.C in the Faculty of Science section of the online Calendar.

Prerequisite(s):

Mathematics 211 or 213.

3. Grading:

The University policy on grading and related matters is described in <u>F.1</u> and <u>F.2</u> of the online University Calendar.

In determining the overall grade in the course the following weights will be used:

Component(s)	Weighting %	Date
Assignments (3)	30%	
Midterm	30%	
Final Exam	40%	

Each piece of work (reports, assignments, quizzes, midterm exam(s) or final examination) submitted by the student will be assigned a grade. The student's grade for each component listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade.

The conversion between a percentage grade and letter grade is as follows.

	A+	Α	A-	B+	В	B-	C+	С	C-	D+	D
Minimum % Required	95 %	90 %	85 %	80%	75%	70 %	65 %	60%	55%	50 %	45 %

All assessments: both mathematical correctness and quality of mathematical writing will be assessed.

Late submissions of assessments will not be accepted.

* Assignment Information

There will be three (3) assignments, equally weighted at 10% each. Due at 11:59 PM Mountain Time on the due date.

Submissions must be a single PDF file uploaded to the appropriate D2L Dropbox.

Students will have approximately one week to complete each Assignment.

Students may discuss assignment problems with their peers during the initial problems solving stages; however, students are expected to write assignment solutions independently. That is, students should not share written solutions to assignment problems.

D2L discussion boards will be created to facilitate problem-solving collaboration.

Students may NOT use external online "homework services" (See Section 7). One question (chosen at

2021-06-29 2 of 6

random) on each assignment will be assessed out of 15 points

** Midterm Exam Information

Designed as a 2-hour written exam.

Due at 11:59 PM Mountain Time on the due date.

Submissions must be a single PDF file uploaded to the appropriate D2L Dropbox.

The Midterm Exam will be available to be completed during the 24 hour period from 12:00 AM MT to 11:59 PM MT.

Students are expected to complete the Midterm Exam independently.

Students may use all course materials posted to D2L while completing the Midterm Exam.

Students may NOT use external resources or online "homework services"

*** Final Exam Information

Designed as a 2-hour written exam. Due at end of the registrar scheduled time period.

Submissions must be a single PDF file uploaded to the appropriate D2L Dropbox.

The Final Exam will be available to be completed during the 24 period.

Students are expected to complete the Final Exam independently.

Students may use all course materials posted to D2L while completing the Final Exam.

Students may NOT use external resources or online "homework services".

Each piece of work (reports, assignments, quizzes, midterm exam(s) or final examination) submitted by the student will be

assigned a grade. The student's grade for each component listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade.

This course will have a final exam that will be scheduled by the Registrar. The Final Examination Schedule will be published by the Registrar's Office approximately one month after the start of the term. The final exam for this course will be designed to be completed within 2 hours.

The final exam will be administered using an on-line platform. Per section of the online Academic Calendar, timed final exams administered using an on-line platform, such as D2L, will be available on the platform. Due to the scheduling of the final exams, the additional time will be added to **the end** of the registrar scheduled **synchronous** exam to support students. This way, your exam schedule accurately reflects the **start time** of the exam for any **synchronous** exams. E.g. If a **synchronous** exam is designed for 2 hours and the final exam is scheduled from 9-11am in your student centre, the additional time will be added to the **end** time of the **synchronous** exam. This means that if the exam has a 1 hour buffer time, a synchronous exam would start at 9 am and finish at 12pm.

4. Missed Components Of Term Work:

The university has suspended the requirement for students to provide evidence for absences. Please do not attend medical clinics for medical notes or Commissioners for Oaths for statutory declarations.

In the event that a student legitimately fails to submit any online assessment on time (e.g. due to illness etc...), please contact the course coordinator, or the course instructor if this course does not have a coordinator to arrange for a re-adjustment of a submission date. Absences not reported within 48 hours will not be accommodated. If an excused absence is approved, one possible arrangement is that the percentage weight of the legitimately missed assignment could also be pro-rated among the components of the course. This option is at the discretion of the coordinator and may not be a viable option based on the design of this course.

5. Scheduled Out-of-Class Activities:

There are no scheduled out of class activities for this course.

2021-06-29 3 of 6

6. Course Materials:

Recommended Textbook(s):

Susanna S. Epp, Discrete Mathematics with Applications, 5th edition: Brooks/Cole.

In order to successfully engage in their learning experiences at the University of Calgary, students taking online, remote and blended courses are required to have reliable access to the following technology:

- · A computer with a supported operating system, as well as the latest security, and malware updates;
- A current and updated web browser;
- Webcam/Camera (built-in or external);
- Microphone and speaker (built-in or external), or headset with microphone;
- Current antivirus and/or firewall software enabled;
- Stable internet connection.

For more information please refer to the UofC **ELearning** online website.

7. Examination Policy:

No aids are allowed on tests or examinations.

Students should also read the Calendar, Section G, on Examinations.

8. Approved Mandatory And Optional Course Supplemental Fees:

There are no mandatory or optional course supplemental fees for this course.

9. Writing Across The Curriculum Statement:

For all components of the course, in any written work, the quality of the student's writing (language, spelling, grammar, presentation etc.) can be a factor in the evaluation of the work. See also Section $\underline{\text{E.2}}$ of the University Calendar.

10. Human Studies Statement:

Students will not participate as subjects or researchers in human studies.

See also <u>Section E.5</u> of the University Calendar.

11. Reappraisal Of Grades:

A student wishing a reappraisal, should first attempt to review the graded work with the Course coordinator/instructor or department offering the course. Students with sufficient academic grounds may request a reappraisal. Non-academic grounds are not relevant for grade reappraisals. Students should be aware that the grade being reappraised may be raised, lowered or remain the same. See Section 1.3 of the University Calendar.

- a. **Term Work:** The student should present their rationale as effectively and as fully as possible to the Course coordinator/instructor within **ten business days** of either being notified about the mark, or of the item's return to the class. If the student is not satisfied with the outcome, the student shall submit the Reappraisal of Graded Term work form to the department in which the course is offered within 2 business days of receiving the decision from the instructor. The Department will arrange for a reappraisal of the work within the next ten business days. The reappraisal will only be considered if the student provides a detailed rationale that outlines where and for what reason an error is suspected. See sections <u>I.1</u> and <u>I.2</u> of the University Calendar
- b. **Final Exam:**The student shall submit the request to Enrolment Services. See <u>Section I.3</u> of the University Calendar.

12. Other Important Information For Students:

- a. **Mental Health** The University of Calgary recognizes the pivotal role that student mental health plays in physical health, social connectedness and academic success, and aspires to create a caring and supportive campus community where individuals can freely talk about mental health and receive supports when needed. We encourage you to explore the mental health resources available throughout the university community, such as counselling, self-help resources, peer support or skills-building available through the SU Wellness Centre (Room 370, MacEwan Student Centre, Mental Health Services Website) and the Campus Mental Health Strategy website (Mental Health).
- b. SU Wellness Services: For more information, see www.ucalgary.ca/wellnesscentre or call 403-210-9355.

2021-06-29 4 of 6

- c. **Sexual Violence:** The Sexual Violence Support Advocate, Carla Bertsch, can provide confidential support and information regarding sexual violence to all members of the university community. Carla can be reached by email (svsa@ucalgary.ca) or phone at 403-220-2208. The complete University of Calgary policy on sexual violence can be viewed at https://www.ucalgary.ca/policies/files/policies/sexual-violence-policy.pdf)
- d. Misconduct: Academic integrity is the foundation of the development and acquisition of knowledge and is based on values of honesty, trust, responsibility, and respect. We expect members of our community to act with integrity. Research integrity, ethics, and principles of conduct are key to academic integrity. Members of our campus community are required to abide by our institutional Code of Conduct and promote academic integrity in upholding the University of Calgary's reputation of excellence. Some examples of academic misconduct include but are not limited to: posting course material to online platforms or file sharing without the course instructor's consent; submitting or presenting work as if it were the student's own work; submitting or presenting work in one course which has also been submitted in another course without the instructor's permission; borrowing experimental values from others without the instructor's approval; falsification/fabrication of experimental values in a report. Please read the following to inform yourself more on academic integrity:

Student Handbook on Academic Integrity
Student Academic Misconduct Policy and Procedure
Research Integrity Policy

Additional information is available on the Student Success Centre Academic Integrity page

e. **Academic Accommodation Policy:** Students needing an accommodation because of a disability or medical condition should contact Student Accessibility Services in accordance with the procedure for accommodations for students with disabilities available at <u>procedure-for-accommodations-for-students-with-disabilities.pdf</u>.

Students needing an accommodation in relation to their coursework or to fulfill requirements for a graduate degree, based on a protected ground other than disability, should communicate this need, preferably in writing, to the Associate Head of the Department of Mathematics & Statistics, Mark Bauer by email bauerm@ucalgary.ca or phone 403-220-4189. Religious accommodation requests relating to class, test or exam scheduling or absences must be submitted no later than **14 days** prior to the date in question. See Section E.4 of the University Calendar.

- f. **Freedom of Information and Privacy:** This course is conducted in accordance with the Freedom of Information and Protection of Privacy Act (FOIPP). Students should identify themselves on all written work by placing their name on the front page and their ID number on each subsequent page. For more information, see <u>Legal Services</u> website.
- g. **Student Union Information:** <u>VP Academic</u>, Phone: <u>403-220-3911</u> Email: <u>suvpaca@ucalgary.ca</u>. SU Faculty Rep., Phone: <u>403-220-3913</u> Email: <u>sciencerep@su.ucalgary.ca</u>. <u>Student Ombudsman</u>, Email: <u>ombuds@ucalgary.ca</u>.
- h. **Surveys:** At the University of Calgary, feedback through the Universal Student Ratings of Instruction (<u>USRI</u>) survey and the Faculty of Science Teaching Feedback form provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses. Your responses make a difference please participate in these surveys.
- i. **Copyright of Course Materials:** All course materials (including those posted on the course D2L site, a course website, or used in any teaching activity such as (but not limited to) examinations, quizzes, assignments, laboratory manuals, lecture slides or lecture materials and other course notes) are protected by law. These materials are for the sole use of students registered in this course and must not be redistributed. Sharing these materials with anyone else would be a breach of the terms and conditions governing student access to D2L, as well as a violation of the copyright in these materials, and may be pursued as a case of student academic or non-academic misconduct, in addition to any other remedies available at law.

Course Outcomes:

- Distinguish among different types of proofs, including: direct proof, indirect proof, proof by contraposition, and proof by induction.
- Outline what must be included in the proof of a statement, being aware that this is highly dependent on the statement to be proved.
- o Construct various types of proofs, including: direct proofs, indirect proofs, proofs by contraposition, and

2021-06-29 5 of 6

proofs by induction.

- Restate all definitions related to the course topics of number systems, sets, functions, relations, and graphs
- Restate named theorems covered in the course
- List different forms of logical statements and write the negation, the converse and the contrapositive of a statement.
- Perform the Euclidean algorithm to find the greatest common divisor of two integers and to find an inverse of an integer modulo n.
- List the steps in a direct proof, the steps in a proof by contradiction and the steps of a proof by induction
- Produce proofs involving objects covered in the course such as sets, functions, relations, and graphs.
- Outline and perform the steps required to solve counting problems concerning arrangements of objects and selection of objects.

Electronically Approved - Jun 29 2021 16:48
