**3. Grading** The University policy on grading and related matters is described sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course the following weights will be used:

Assignments (5)	35%
Midterm examination (1)	20% (October 31, 2013)
Final examination	45% (To be scheduled by the Registrar)

A passing grade on the final examination is essential for an overall grade of C- or better.

Each piece of work (assignment, midterm examination and final examination) submitted by the student will be assigned a percentage score. The student's average percentage score for the various components listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade (bearing in mind that a grade of C- or less will result if the student does not pass the final examination). The conversion between course percentage and letter grade is given below.

Letter Grade Conversions	
Letter Grade	Minimum %
A+	≥ 96
A	≥ 89
A-	≥ 86
B+	≥ 83
B	≥ 76
