

Anthropology 553 - Primate Behavioural Research Design Spring 2017

Professor: Dr. Hugh Notman (hgwnotma@ucalgary.ca)

Office: ES 602B

Office Hours: by appointment

Course Description: In this course students are required to design a research project, and to produce a (almost) graduate-level research proposal that includes the identification and operationalization of a research question and details about intended (and appropriate) methods of data collection and analysis. Research proposal preparation is done in the field through consultation with the instructor and teaching assistants, and is meant to be inspired by field observations along the way. Final project, however, is submitted 2 weeks after return. A literature assignment of select papers ensures students are familiar with all aspects of operationalizing research design elements, and a field ecology and conservation component (based on guest instruction by a Belizean ecologist) provides local context with respect to how indigenous people have used the forest, as well as to how foreign researcher presence can effect local economies and societies. Course Hours: H(3-3) Prerequisite(s): Anthropology 311 and consent of the Department. Corequisite(s): Anthropology 552 and 505 . Notes: Normally offered during Spring Term. MAY BE REPEATED FOR CREDIT

Learning outcomes: By the end of ANTH 553, students will have:

- Formulated research hypotheses to guide their proposal
- Identified relevant and key variables as they pertain to their proposed research hypotheses, and how to measure them
- Developed all steps in writing a scientific research proposal, including the ability to anticipate budgetary considerations
- Gained an in-depth knowledge of the ecology of the local forest and its relationship to historic and current human activity
- Gained an appreciation for how developing countries in which researchers propose to work are impacted by their presence

Readings: Various and to be assigned. There are no textbooks

ACADEMIC INTEGRITY

Academic integrity is essential to the pursuit of learning and scholarship in a university, and to ensuring that a degree from the University of Calgary is a strong signal of each student's individual academic achievements. As a result, the University treats cases of cheating and plagiarism very seriously. Non-academic integrity also constitutes an important component of this program.

For detailed information on what constitutes academic and non-academic misconduct, please refer to the following link: <http://www.ucalgary.ca/pubs/calendar/current/k-2-1.html>

All suspected cases of academic and non-academic misconduct will be investigated following procedures outlined in the University Calendar. If you have questions or concerns about what constitutes appropriate

academic behavior or appropriate research and citation methods, you are expected to seek out additional information on academic integrity from your instructor or from other institutional resources.

Where there is a criminal act involved in plagiarism, cheating or other academic misconduct, e.g., theft (taking another student's paper from their possession, or from the possession of a faculty member without permission), breaking and entering (forcibly entering an office to gain access to papers, grades or records), forgery, personation and conspiracy (impersonating another student by agreement and writing their paper) and other such offences under the Criminal Code of Canada, the University may take legal advice on the appropriate response and, where appropriate, refer the matter to the police, in addition to or in substitution for any action taken under these regulations by the University

TEACHING EVALUATIONS / USRI (Universal Student Ratings of Instruction)

At the University of Calgary, feedback provided by students through the Universal Student Ratings of Instruction (USRI) survey provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses. **Your responses make a difference, please participate!**

Writing Across the Curriculum

Writing skills are not exclusive to English courses and, in fact, should cross all disciplines. The University supports the belief that throughout their University careers, students should be taught how to write well so that when they graduate their writing abilities will be far above the minimal standards required at entrance. Consistent with this belief, students are expected to do a substantial amount of writing in their University courses and, where appropriate, members of faculty can and should use writing and the grading thereof as a factor in the evaluation of student work. The services provided by the Writing Support, part of the Student Success Centre, can be utilized by all undergraduate and graduate students who feel they require further assistance

Please refer to the following link for detailed information: <http://www.ucalgary.ca/legalservices/foip>
