Final Exam	30 %		

(There will be a final exam scheduled by the Registrar's office.)

"Each piece of work (assignment, laboratory report, midterm test or final examination) submitted by the student will be assigned a percentage score. The student's average percentage score for the various components listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade."

The student cannot pass the course as a whole unless they have passed at least one component of the lab based examinations (reports or exam) and one component of the lecture based examinations (midterm or final exam).

4. **Missed Components of Term Work:** The regulations of the Faculty of Science pertaining to this matter are found in the Faculty of Science area of the Calendar in [Section 3.6](#).
