Course Description

An introduction to professional and technical communication in diverse media. Examines the rhetorical dimensions of workplace settings as well as the process of planning, composing and delivering professional and technical communication for various audiences

Additional Information

The weekly schedule of topics and readings can be found at the end of this outline or on D2L. All components of this course are asynchronous.

Students are responsible for reading and following all course and university policies discussed in this outline.

Objectives of the Course

By the end of this course, students should be able to

- approach workplace communication rhetorically, focusing not only on their purpose in writing but also on the needs and expectations of their audience and considering the ethical dimensions and other relevant features of the writing context.

- format basic workplace genres, including formal and informal reports, proposals, letters, memos, emails, and, optionally, résumés, instructions, technical descriptions, and websites.
- write and design effective print and online documents, using headings, lists, well-crafted paragraphs, and white space.
- effectively use, design, and present figures and tables.
- conduct secondary research (locating relevant sources using the U of C library search tools online). Depending on the focus of the recommendation report assignment, students may also be expected to know how to construct and interpret and present results from a simple empirical study (e.g., a small-scale usability study involving testing, interviews, or surveys).
- effectively use and correctly cite information from sources using a citation style appropriate to the course audience, ideally APA and/or IEEE style.
- edit documents to eliminate common writing errors.

Make sure course messages do not get filtered into spam or junk

folders or get rejected by your mail server. By default, Desire2Learn will use the email address associated with your U of C ID. Configure your notification preferences in your D2L Settings, and then subscribe to desired discussion forums & threads.

Word processing software: The use of Microsoft Office software (ideally, 2007 or later) is highly recommended. Assignments require advanced features of Office programs (Microsoft Word, Microsoft Excel) for professional formatting of tables, graphs, tables of contents, page numbering, headers, etc. MS Office is available to U of C Students through [Office 365](#).

Grading & Department of Communication, Media and Film Grade Scale

The following table outlines the grade scale percentage equivalents used in the Department of Communication, Media and Film. Final grades are reported as letter grades. For components graded using percentages or numerical scores, those values will be used directly in calculating the final course grade, while for components graded using letter grades, the letter grades will be converted to the midpoint values listed in the final column of the table below in calculating the final course grade.

In this course, percentage grades will be used for all assignments.

Grade Point Value	Description	Grade	Dept of CMF grade scale equivalents*	Letter grade % equivalent for calculations*
4.00	Outstanding performance	A+	96 - 100%	98.0%

4.00	Excellent performance	A	90 - 95.99%	93.0%
3.70	Approaching excellent performance	A -	85 - 89.99%	87.5%
3.30	Exceeding good performance	B+	80 - 84.99%	82.5%

* Column 4: If percentages are used to calculate final grades, then grades falling within these ranges will be translated to the corresponding letter grades. Column 5: These percentage equivalents will be used for calculating final grades unless an alternative method of final grade calculation is outlined above.

Plagiarism

Using any source whatsoever without clearly documenting it is a serious academic offense. Consequences include failure on the assignment, failure in the course and possibly suspension or expulsion from the university. These requirements apply to all assignments and sources, including those in non-traditional formats such as Web pages or visual media.

You must document not only direct quotations but also paraphrases and ideas where they appear in your text. A reference list at the end is insufficient by itself. **In-text citations must be provided, and readers must be able to tell exactly where your words and ideas end and other people's words and ideas begin.** Wording taken directly from a source must be enclosed within quotation marks (or, for long quotations, presented in the format prescribed by the documentation style you are using). Paraphrased information must not follow the original wording and sentence structure with only slight word substitutions here and there.

For information on citation and documentation styles (MLA, APA, Chicago, IEEE, etc.), visit the Student Success Centre resource links at <https://ucalgary.ca/student-services/student-success/writing-support> or the Purdue Online Writing Lab (OWL) Research and Citation Resources at https://owl.purdue.edu/owl/research_and_citation/resources.html

If you need help with your writing or have questions about citing sources, consult your instructor or visit the Student Success Centre, Taylor Family Digital Library. To book an appointment, go to <https://ucalgary.ca/student-services/student-success/writing-support>
