To avoid IT problems, it is recommended that the students use their U of C account for all course correspondence.

2. Prerequisites: Enrolment as a graduate student in the Chemistry program.

3. Grading: The University policy on grading and related matters is described sections [F.1](#) and [F.2](#) of the online University Calendar. In determining the overall grade in the course, the following weights will be used:

Term paper 1 critical review	20%
Term paper 2 NSERC proposal	40%
Assignments	20%
<u>Presentations</u>	<u>20%</u>
Total	100%

Approximate Grading Scale:

A+ >95 A 85 A- 80 B+ 75 B 70 B- 65 C+ 60 C 55 C- 50 D+ 45 D 40 F

Each piece of work (assignments, term papers and presentations) submitted by the student will be assigned a percentage score. The student's average percentage score for the various components listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade. The conversion between course percentage and letter grade is shown above. All submitted work must occur by 9am on the due date.

4. Missed Components of Term Work: The regulations of the Faculty of Science pertaining to this matter are found in the Faculty of Science area of the Calendar in [Section 3.6](#). It is the student's responsibility to familiarize himself/herself with these regulations. See also [Section E.6](#) of the University Calendar. If a student misses an assignment or term paper then a 25% penalty per day (includes weekends) will be imposed. Failure to show up for a presentation will result in a zero, unless a valid excuse is provided.

5. Course Materials: optional "*Modern Physical Organic Chemistry*" by Eric V. Anslyn, Dennis A. Dougherty, 2nd Edition, University Science Books.

6. **Examination Policy:** There is no final examination for this course. Students should also read the Calendar, [Section G](#), on Examinations.
7. **Writing across the curriculum statement:** For all components of the course, in any written work, the quality of the student's writing (language, spelling, grammar, presentation etc.) will be a factor in the evaluation of those reports. See also [Section E.2](#) of the University Calendar.
8. **Reappraisal of Grades:** Students should be aware that the grade being reappraised may be raised, lowered or remain the same. See [Section I.3](#) of the University Calendar.
 - a) **Term work:** A student who feels that a piece of graded term work (term paper, assignment or presentation) has been unfairly graded, may have the work re-graded. The student shall discuss the work with the Instructor **within 15 days** of either being notified about the mark, or of the item's return to the class. If not satisfied, the student shall immediately submit the *Reappraisal of Term work Grade* form to the Associate Head of Chemistry, Dr. Farideh Jalilehvand (ahugchem@ucalgary.ca), who will arrange for a reassessment of the work if, and only if, the student's argument is valid. *Note:* Students should attempt to present their rationale as effectively and as fully as possible. Mere dissatisfaction with a decision is not sufficient grounds for the appeal of a grade, or other academic decision. See sections [I.1](#) and [I.2](#) of the University Calendar.
 - b) **Final Exam:** A student wishing a reappraisal of the final grade should first attempt to review the final assessment with the department offering the course. If not satisfied, the student shall submit the request to the Enrolment Services. See [Section I.3](#) of the University Calendar.
