2. **Requisites:**

See section [3.5.C](#) in the Faculty of Science section of the online Calendar.

3. **Grading:**

The University policy on grading and related matters is described in [F.1](#) and [F.2](#) of the online University Calendar. In determining the overall grade in the course the following weights will be used:

Component(s)	Weighting %	Date
Mini-assignments	10	
Assignments	45	
Presentation	10	
Final Exam	35	

Each piece of work (reports, assignments, quizzes, midterm exam(s) or final examination) submitted by the student will be assigned a grade. The student's grade for each component listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade.

The conversion between a percentage grade and letter grade is as follows.

	A+	A	A-	B+	B	B-	C+	C	C-	D+	D
Minimum % Required	97 %	90 %	85 %	80%	75%	70 %	65 %	60%	56%	53 %	50 %

Percentage grades will be assigned to the assignments, mini assignments, presentation and final. An overall percentage grade will then be computed, which is converted to a letter grade using the included conversions.

This course has a registrar scheduled final exam.

In order to obtain a final grade of C- or better, a student must achieve a C- or better on the final exam.

The department will arrange for a re-assessment of the work if, and only if, the student has sufficient academic grounds. See sections [I.1](#) and [I.2](#) of the University Calendar
