Grade Determination and Final Examination Details:

2 assignments (7.5% each)	20%
Midterm Examination, Friday, Oct. 25 th	30%
Final Examination	50%

Assignments:

1. Assignments will be multiple choice questions, posted on Blackboard. Due dates will be posted during the first week of class.
2. All assignments will be due by 10:00 AM on the due date, at the beginning of class. **Late assignments will not be accepted under any circumstance. Assignments sent electronically will not be accepted under any circumstance. Only assignments handed in at the beginning of the lecture on the appropriate due dates will be accepted.**
3. Course material dealing with a particular assignment will typically be covered in class at least one lecture before the assignment is due and assignments can be done at any time prior to the due date and then handed in at the beginning of the lecture on the due date.

Aplia and Practice Problems:

1. If you choose one of the textbook options that include Aplia, you will be required to access the Aplia website at <http://aplia.com> . Please register on the website within the first week of classes. Should you only purchase the online textbook with Aplia access, you have to pay for Aplia within the deadline set by Aplia.
2. Using Aplia, you will be able to complete practice problem sets. **Aplia problem sets are entirely optional, as is the purchase of Aplia.**
3. Emails regarding Aplia should be directed towards the providers of Aplia or to the teaching assistants (TAs) that will be assigned to this course.

Examinations:

1. Examinations will consist of multiple choice questions.
2. The midterm examination will cover the material in Chapters 1 – 8 inclusive, and the exam will be held during lecture time on Friday, Oct. 25th.
3. The final examination will last two hours, will be scheduled by the Registrar. The final examination will cover all course material, but will be heavily weighted towards material that was not dealt with in the midterm (i.e. >70% of the final will cover Chapters 9 – 11, 13 - 17).
4. A non-programmable calculator may be used in the examinations.

Assignments, tests and final exams are marked on a numerical (percentage) basis, and then converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, these letter grade equivalences will generally apply:

A+	95 – 100	B	73 - 76	C-	60 - 62
A	85 - 94	B-	70 - 72	D+	56 - 59
A-	80 - 84	C+	67 - 69	D	50 - 55
B+	77 - 79	C	63 - 66	F	0 - 49

Notes:

1. Students should be aware that no “make-up” midterms will be given. Any student who finds it necessary to miss the midterm must notify the instructor in advance and produce a valid medical certificate or other required documentation in order to have the weighting moved to the final examination. Note that deferred final examinations may contain short/long answer questions. Also, deferred final examinations do not have to cover the same material or have the same format as the regular final examination.
2. Students should be aware that no "make-up" assignments will be given. Any student who finds it necessary to miss an assignment must notify the instructor in advance and produce a valid medical certificate or other required documentation in order to have the weighting adjusted. This adjustment will result in the weight for the missing assignment(s) being added to the final exam weight.
3. Students should be aware of the academic regulations outlined in The University of Calgary Calendar.
4. It is the student’s responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than fourteen (14) days after the start of this course.
5. The use of cell phones for any purpose in class is prohibited. Computers may be used for note-taking purposes only.
6. Students seeking reappraisal of a piece of graded term work should discuss their work with the instructor *within fifteen days* of work being returned to class. However, the earliest that grades will be discussed will be the next scheduled office hour after the return of an assignment or examination.
7. Students will be responsible for all material listed on the course outline, regardless of whether or not the material has been covered in class, unless the instructor notifies the class that the material will not be covered.

8. Please note that the following types of emails will receive **no response**: emails not addressed to anyone in particular; emails where the recipient's name is not spelled correctly; anonymous emails; emails in which the sender has not identified which course and section he/she is taking; and, emails involving questions that are specifically addressed on the course outline.
