

Department of Economics Course Outline

		Term:	Spring 2007
Course:	Economics 201 [Principles of Microeconomics]	Section:	21
Time:	Lecture TR 18:00 ? 20:50 Tutorial TR 17:00 ? 17:50	Place:	SA 104 SA 104 (subject to change)
Instructor:	Professor R. C. Schlenker		
Office:	SS 1050	Telephone:	220-4096 220-5857 (messages)
Office Hours:	TR 17:00-17:50 (in tutorial)	E-Mail:	rschlenk@ucalgary.ca

Required: Mankiw et al. *Principles of Microeconomics*, 3rd Canadian edition. Thomson Nelson. + Aplia Access

~~Book(s) Reserve:~~

Kit
OR

Aplia Access Kit for Mankiw et al (see above) with online version of textbook

Optional: Study Guide for above.

None.

Blackboard:

This course will make use of Blackboard - students who are registered in the course can log on at <http://blackboard.ucalgary.ca/webapps/login>

Please note that Blackboard features a class email-list that will be used. It is your responsibility to ensure that Blackboard uses the email address of your choice. The default is your University of Calgary email address.

Course Outline:

	<u>Text and Workbook</u>	<u>Assignment (due date)</u>
1. Introduction & Gains from Trade	Chapters 1-3	#1 (parts A&B) (May 28)
2. Supply/Demand & Controlled Prices	Chapters 4,6(pp.115-126)	#2 (parts A&B) (June 4)
3. Elasticity & Efficiency of Markets	Chapters 5-8	#3 (parts A,B&C) (June 4)
Midterm Exam on June 7 covers Chapters 1-8		
4. Consumer & Producer Theory	Chapter 21, 13	#4 (parts A&B) (June 18)
5. Perfect Competition	Chapter 14	#5 (June 25)
6. Monopoly	Chapter 15	#6 (June 25)
7. Monopolistic Competition & Oligopoly	Chapters 16, 17	--
8. Market Failure & Government Intervention	Chapters 1, 11	--

Grade Determination and Final Examination Details:

6 assignments (best 5 counted, 4% each)	20%	(Due Dates: see outline above)
Midterm Examination	30%	(Thursday, June 7 ? in class)
Final Examination	50%	(June 27-29)

Assignments and Practice Problems:

- In order to complete assignments in this course, you will be required to access the Aplia website at <http://econ.aplia.com> . Please register on the website within the first week of classes.
- All assignments will be due at 11:45 PM on the due date. All assignments are due on Tuesday nights. Late assignments cannot be accepted by Aplia. Please note that many of the assignments have multiple parts to them, all of which must be completed by the time noted.
- Course material dealing with a particular assignment will typically be covered in class at least a week before the assignment is due and assignments can be done at any time prior to the due date. In addition, only the best 5 assignments of the 6 that are to be completed will count towards your final mark. Given these factors, only situations where someone can document illness or domestic affliction for an extended period (i.e. the entire week prior to the assignment due date) would possibly warrant shifting the assignment weight to the final exam. Furthermore, technical problems can be expected to sometimes occur with computer systems and internet availability so it may be a good idea to not wait until the last minute to submit your assignment ? again, given that one of the assignments will not count toward your final mark, technical problems will typically not justify shifting the assignment weight to the final exam.
- Using Aplia, you will be able to complete practice problem sets prior to each assignment. In the practice problem sets, you will get immediate feedback as to whether you have answered a question correctly and in many cases an explanation if you have not. Your results in the practice problem sets are not counted or reported to the instructor.

It is strongly recommended that you do the practice problems related to a particular assignment prior to completing the assignments. Practice problems can be done at any time during the semester and can be repeated if desired.

- Emails regarding technical concerns or the wording of questions within Aplia should be directed towards the providers of Aplia. General course content questions should be directed to the instructor.

Examinations:

- Examinations will consist of multiple choice questions.
- The midterm examination will be held during lecture time and will cover Chapters 1-8.
- The final examination will last two hours, will be scheduled by the Registrar and held in a classroom. The final examination will cover all course material but will be heavily weighted towards material that was not dealt with in the midterm (i.e. about 80% of the final will cover Chapters 10,11,13-17 and 21)
- Anon-programmable, simple calculator may be used in the examinations.

Assignments, tests and final exams are marked on a numerical (percentage) basis, then converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, these letter grade equivalences will generally apply:

A+	98 ? 100	B	75 ? 79	C-	60 ? 62
A	90 ? 97	B	70 ? 74	D+	55 ? 59
A-	85 ? 89	C+	67 ? 69	D	50 ? 54
B+	80 ? 84	C	63 ? 66	F	0 ? 49

If, for some reason, the distribution of grades determined using the aforementioned conversion chart appears to be abnormal the instructor reserves the right to change the grade conversion chart if the instructor, at the instructor's discretion, feels it is necessary to more fairly represent student achievement.

- A passing grade on the final exam is necessary to pass the course as a whole.

Notes:

- Students should be aware that generally no "make-up" midterms will be given. Any student who finds it necessary to miss the midterm must notify the instructor in advance and produce a valid medical certificate or other required documentation in order to have the weighting adjusted. This adjustment will result in the final exam counting for 70% of the final grade and the Aplia assignments counting for 30% of the final grade. Note that deferred final examinations may contain short/long answer questions. Also, deferred final examinations do not have to cover the same material or have the same format as the regular final examination.
- Students should be aware of the academic regulations outlined in The University of Calgary Calendar.
- Students seeking reappraisal of a piece of graded term work should discuss their work with the instructor *within 7 days* of work being returned to class. However, the earliest that grades will be discussed will be two days after the return of an assignment or examination.
- Students will be responsible for all material listed on the course outline, regardless of whether or not the material has been covered in class, unless the instructor notifies the class that the material will not be covered.
- Please note that the following types of emails will receive no response: emails not addressed to anyone in

particular; emails where the recipient's name is not spelled correctly; anonymous emails; emails in which the sender has not identified which course and section he/she is taking; and, emails involving questions that are specifically addressed on the course outline.

- It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. In the Department of Economics, we recommend that all students enrolled in the Spring/Summer session, should discuss their needs with the instructor of the course no later than seven (7) days after the start of this course.
