Course Description:

This course focuses on the principle that “markets are usually a good way to organize economic activity”.

Course Objectives/Learning Outcomes:

This course will enable students to understand microeconomic issues, which arise in everyday life. We attempt to answer questions: how markets work, when they work well, when they do not work well and the role of the government in resource allocation. As well, this course will prepare students for more advanced courses in microeconomics.

Grade Determination and Final Examination Details:

(i)	Midterm Exam	30%	June 11, 2018
(iii)	5 Assignments (best 4 counted), 5% each	20%	Due dates: May 23, May 30, June 6, June 18, and June 25, at 20:00.
	Final Examination	50%	
		100%	

Grading Scale

A+	95 – 100	B	73 – 76	C-	60 – 62
A	85 – 94	B-	70 – 72	D+	56 – 59
A-	80 – 84	C+	67 – 69	D	50 – 55
B+	77 – 79	C	63 – 66	F	0 – 49

A passing grade on any particular component of the course is not required for a student to pass the course as a whole.

As per the Writing Across the Curriculum Statement in the Calendar, writing and grading thereof will be a factor in the evaluation of student work.

Any student work which remains undistributed after the last day of classes will be available to students through the instructor's office during his office hours.

Assignments

1. Assignments will be done in Mindtap/Aplia.
2. All assignments will be due at 20:00 on the due date. It is your responsibility to remember the due dates. Late assignments will not be accepted. Furthermore, technical problems can be expected to sometimes occur with computer systems and internet availability so it may be a good idea to not wait until the last minute to submit your assignment. Technical problems will not justify shifting the assignment weight to the final exam.
3. Course material covered in a particular assignment will typically be covered in class at least ½ week before the assignment is due and assignments can be done at any time prior to the due date. Given these factors, only situations where someone can document illness or domestic affliction for an extended period (i.e. the entire 7 or more days prior to the assignment due date) would possibly warrant shifting the assignment weight to the final exam.
4. Students are free to complete material in Mindtap that pertains to topics covered in lectures. Emails regarding Mindtap should be directed towards the providers of Mindtap. I am unable to help with computer issues.

Examinations

1. Midterm and final exam WILL consist of the multiple-choice questions.
2. The midterm examinations will be held in class, lasting 75 minutes and will cover chapters 1 – 9.
3. There will be a Registrar scheduled final examination, lasting 2 hours. It will be a comprehensive examination of all-material covered in the course.
4. The exams must be completed during the specified time. Extra time will not be given for any reason.
5. All examinations will be closed-book.
6. Deferred examinations will not be given except in the case of the Final Examination, where this

possibility is provided for in the university's Academic Regulations. Note that deferred final examination may contain short/long answer questions. Also, deferred final examination does not have to cover the same material or have the same format as the regular final examination.

7. Students should be aware that no "make-up" midterms will be given. Any student who finds it necessary to miss the midterm must notify the instructor in advance and produce a valid medical certificate or other required documentation in order to have the weighting adjusted. This adjustment will result in the final exam counting for 60% of the final grade and the assignments and essay counting for 40% of the final grade.
8. Examinations will not be given before the indicated examination date. For further information see the 2017-2018 Calendar.
9. The use of a non-programmable calculator during test and examination is permitted. The use of graphing calculators, cell phones, and computers is not permitted.
