Midterm Examination	35% (July 27 in class)
Final Examination	50% (August 17, 18 or 19)

Tests and final exams are marked on a numerical (percentage) basis, then converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, these letter grade equivalences will apply:

A+	98 – 100	B	75 – 79	C-	60 – 62
A	90 – 97	B-	70 – 74	D+	55 – 59
A-	85 – 89	C+	67 – 69	D	50 – 54
B+	80 – 84	C	63 – 66	F	0 – 49

A passing grade on any particular component of the course is not required for a student to pass the course as a whole.

Examinations:

1. Non-programmable calculators **WILL** be allowed during the writing of tests or final examinations. **The use of graphing calculators, cell phones, computers, tablets , or any device with an alphanumeric keyboard is not permitted.**
2. There will be a Registrar scheduled final examination, held in a classroom, lasting 2 hours.
3. Exams **WILL** involve multiple choice questions.

Assignments and Mindtap:

1. Assignments will consist of multiple choice questions and will be done in D2L.
2. All assignments will be due at 11:00 PM on the due date. It is your responsibility to remember the due dates. Late assignments cannot be accepted in D2L. Furthermore, technical problems can be expected to sometimes occur with computer systems and internet availability so it may be a good idea to not wait until the last minute to submit your assignment. Technical problems will not justify shifting the assignment weight to the final exam.
3. Course material covered in a particular assignment will typically be covered in class at least one lecture before the assignment is due and assignments can be done at any time prior to the due date. Given these factors, only situations where someone can document illness or domestic affliction for an extended period (i.e. the entire 7 or more days prior to the assignment due date) would possibly warrant shifting the assignment weight to the final exam.
4. Emails regarding the assignments should be directed to the teaching assistants (TAs), who will be assigned to this course.

5. The use of Mindtap is not mandatory in the course. Students are free to complete material in Mindtap that pertains to topics covered in lectures. Emails regarding Mindtap should be directed towards the providers of Mindtap. I am unable to help with computer issues.

Notes:

- All students must comply with the regulations published in the University Calendar concerning "Intellectual Honesty," "Examinations," etc.
- Students seeking reappraisal of a piece of graded term work (term paper, essay, etc.) should discuss their work with the Instructor *within seven days* of the work being returned to the class.
- It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 403-220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than seven (7) days after the start of this course.
- Students should be aware that no "make-up" midterms will be given. Any student who finds it necessary to miss the midterm must notify the instructor in advance and produce a valid medical certificate or other required documentation in order to have the weighting adjusted. This adjustment will result in the final exam counting for 85% of the final grade and the assignments counting for 15% of the final grade. Note that deferred final examinations may contain short/long answer questions. Also, deferred final examinations do not have to cover the same material or have the same format as the regular final examination.
- **The use of cell phones for any purpose in class is prohibited. Computers may be used for note-taking purposes only.**
- Students will be responsible for all material listed on the course outline, regardless of whether or not the material has been covered in class, unless the instructor notifies the class that the material will not be covered.
- Please note that the following types of emails will receive no response: emails not addressed to anyone in particular; emails where the recipient's name is not spelled correctly; anonymous emails; emails in which the sender has not identified which course and section he/she is taking; and, emails involving questions that are specifically addressed on the course outline.
