**Course Description:**

This course is the first of a pair of courses designed to acquaint students with microeconomic theory. Microeconomics is concerned with a systematic understanding of the choices of individuals, firms, and organizations. It seeks to address the social consequences of the behaviour of economic agents. Economic theory provides the structure, or framework, for economic inquiry.

**Course Learning Outcomes:**

Students who successfully complete this course will:

- (i) Develop expertise in the methodology of economic analysis. Economic theory has four elements that students are expected to master:
  - a) Students will become familiar with the foundation of economic reasoning. This involves a fundamental assumption—that individuals make choices based on their perception of their self-interest. The consequence of this assumption is that individual choices and actions depend on incentives. In turn, incentives depend on the interaction of preferences and constraints on time, income, technology, and ability. This framework explains how choices can be understood in terms of their incremental or marginal costs and benefits and how changing an individual's perception of either incremental costs or benefits will change behaviour.
  - b) Students will master equilibrium analysis which involves aggregating over the choices of individuals and ensuring that the choices of individuals are consistent—that what individuals plan to do they are in fact able to do. Equilibrium analysis underlies how economists explain resource allocation in the economy.
  - c) A key part of equilibrium analysis is comparative statics: asking how the equilibrium will change when conditions change.
  - d) Students will understand the strengths, limitations, and value judgments that underlie the notion of efficiency. Efficiency is the yardstick by which economists measure the social desirability of resource allocation.

These four elements of economic modelling are developed through their deployment in the topics considered.

- (ii) Economist's View of the World and the Economic Way of Thinking. Scarcity and Its Management; Pareto Optimality and Gains from Trade; The Role of Prices and Markets; Institutional Foundation of Market Economies; Restrictions on Voluntary Trade; Success of Market Economies and Institutional Choice to Relax Scarcity Constraints.

- (iii) Consumer Theory: Axioms of Preferences; Budget Set; Optimal Choice and Derivation of a demand function; Marshallian and Hicksian demand functions; Income and Substitution Effects; Expenditure function; Measuring Welfare (CV, EV, Consumer Surplus); Applications.
- (iv) Neoclassical Theory of the Firm. Characterization of Technological Possibilities; Opportunity Costs, Sunk Costs, Depreciation, the User Cost of Capital and Economic Profit; Profit Maximization; Cost Minimization Long and Short Run.
- (v) Theory of Perfect Competition. Assumptions; Price Taking; Supply Curves; Short Run Equilibrium; Quasi-Rents versus Profits, Entry and Exit; Long-Run Industry Supply Curve; Ricardian Rents.
- (vi) The Use and Usefulness of Economics in the Determination of Public Policy: Equity vs. Efficiency; Market Failure and the normative role for government; An Introduction to Econ 357

**Tutorials:**

Students are expected to attend the weekly tutorial section to which they have been assigned. During the tutorials, the TA will discuss pre-assigned questions and additional material relevant to the course that is not covered in lectures. Tutorials are L01: Wednesdays, 15:00 – 15:50 in SA 104 and L03: Mondays, 17:00 – 17:50 in ST 139.

**PASS:**

Econ 301 is part of the Peer Assisted Study Session ("PASS") program funded by the Student Success Centre and the Department of Economics. PASS sessions for Econ 301 are offered weekly during which students work collaboratively, guided by a PASS Leader, on difficult concepts. PASS offers alternative approaches and strategies to develop an understanding of the course material. The PASS Leader for ECON 301 has recently taken the course, attends lectures, and has been trained to facilitate collaborative learning and group study. PASS sessions are about students working together to understand course material and develop better academic habits. Students who attend PASS regularly have higher course GPAs and lower DFW rates than those who do not.

**Grade Determination:**

4 Assignments	7.5% each	30%	Due dates: September 29, 2023 October 16, 2023 November 6, 2023 December 4, 2023
Final Exam		40%	
		100%	

**Examination Details:**

Tests and exams WILL NOT involve multiple choice questions.

Programmable calculators, cellphones, textbooks, course notes, and other electronic devices will not be allowed during the writing of tests or final examinations. Students are reminded that simply being able to access their cellphone during an exam is academic misconduct.

**Grading Policies:**

The official grading system will be used. See <http://www.ucalgary.ca/pubs/calendar/current/f-1-1.html>.

Students must receive a passing grade on the final exam to pass the course. Students committing academic misconduct during the final exam will not receive a passing grade for the course.

If a student's letter grade on the final exam exceeds their midterm(s) letter grade, the weight of the midterm(s) is (are) transferred to the final exam. The student must have written the midterm(s) or provided supporting documentation for the absence(s).

As per the Writing Across the Curriculum Statement in the Calendar, writing and grading thereof will be a factor in the evaluation of student work. See <https://www.ucalgary.ca/pubs/calendar/current/e-2.html>.

THERE WILL BE NO MAKEUP OR DEFERRED QUIZZES/TESTS/EXAMS under any circumstances, nor may the quizzes/tests/exams be written early. Students unable to write the quizzes/tests/exams because of documented illness, family emergency, religious observance, or university-sanctioned event will have the weight shifted to the final examination; otherwise a grade of zero will be assigned.

The final examination will be comprehensive, scheduled by the Registrar, held in a classroom, and last 2 hours. If a student cannot write their final exam on the date assigned by the Registrar's Office, they need to apply for a deferred exam <https://www.ucalgary.ca/pubs/calendar/current/g-3-4.html>. Under no circumstance will this be accommodated by the Department.

Any student work which remains undistributed after the last day of classes will be available to students through the instructor's office during the instructor's office hours.
