Course Outline:

Method 2 ? Assignment 20%
 This course examines the nature, causes, and consequences of international trade. (Some topics may be added or deleted depending on time constraints.)
 Final Exam 80%

1. Why Nations Trade: A Partial Equilibrium View ? Chapter 4
2. The Heckscher-Ohlin Model
3. Protectionism ? Chapters 6 and 7
4. Intraindustry Trade ? Chapters 3 and 9
5. International Factor Movements ? Chapters 10 and 15
6. Exchange Rates ? Chapters 12 and 13

A follow-up course, Economics 425 (International Trade II), provides students with a more detailed explanation of trade flows and goes on to consider issues such as: strategic trade policy in the presence of imperfect competition; trade, growth and technological change; trade-related aspects of intellectual property; and trade, trade policy and the environment. Normally, Economics 321, is a prerequisite for Economics 425 and Economics 357 (Intermediate Microeconomics II) is a co-requisite.

Grade Determination and Final Examination Details:

Midterm	30%	October 17, 2006
Assignment	20%	November 2, 2006 ? Late assignment will not be accepted.
Final Examination	50%	Scheduled by Registrar ? 2 Hours

I will compute your final grade using the following two methods:

Method 1 -	Midterm Exam	30%
	Assignment	20%
	Final Exam	50%

Whichever of these methods yields the higher grade will then be utilized.

Each student must work in a group, consisting of either 3 or 4 students, to complete the assignment. Only one assignment will be submitted by the scribe of each group. The assignment is due at the beginning of the lecture on the due date. Late assignments will not be accepted.

The midterm exam will be held in class on the date indicated. The time and location of the final exam, which will be two hours in length, will be scheduled by the Registrar's Office. Exam questions will not consist of multiple choice questions. The use of a calculator during exams is not permitted.

The midterm exam, assignment, and the final exam are marked on a numerical basis. The grades are then added using the weights indicated above. As a guide to determining standing, these letter grade equivalences will generally apply:

A+	97 - 100	B	79 - 83	C-	62 - 66
----	----------	---	---------	----	---------

A	92 - 96	B-	76 - 78	D+	57 - 61
A-	89 - 91	C+	73 - 75	D	50 - 56
B+	84 - 88	C	67 - 72	F	0 ? 49

If, for some reason, the distribution of grades determined using the aforementioned conversion chart appears to be abnormal the instructor reserves the right to change the grade conversion chart if the instructor, at the instructor's discretion, feels it is necessary to more fairly represent student achievement.

R-E-S-P-E-C-T: I assume that the reason you are attending my class is to endeavour to acquire an understanding of International Economics. It has been my experience that this task is made much easier and far more enjoyable for all involved (including me) if we can maintain a relaxed but respectful atmosphere in the classroom. For my part, maintaining such an atmosphere requires that I be respectful of your time, your questions, and your concerns. I will, therefore, strive to be on time for lectures and office hours, answer your questions in class as well as I can, and listen to your concerns. For your part, maintaining a respectful atmosphere requires that you avoid being late for class, that you refrain from leaving before the lecture ends, that you not talk when either I am speaking or one of your classmates is speaking, and that your cell phones are turned off during the class.

Notes:

- Make-up midterm exams and deferred midterm exams will not be given. Deferred final examinations do not have to cover the same material or have the same format as the regular final examination.
