**Grade Determination and Final Examination Details:**

Two Assignments	@ 10% each	20%
Two Midterms	@ 15% each	30%
Final Examination		50%

The dates for the assignments and the midterms will be announced in the first week of classes.

Tests and final exams are marked on a numerical (percentage) basis, and then converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, these letter grade equivalences will apply:

A+	95 - 100	B+	77 - 81	C+	67 - 69	D+	56 - 59
A	87 - 94	B	74 - 76	C	64 - 66	D	50 - 55
A-	82 - 86	B-	70 - 73	C-	60 - 63	F	0 - 49

A passing grade on any particular component of the course is not required for a student to pass the course as a whole.

Non-programmable calculators will be allowed during the writing of tests or final examinations.

There will be a Registrar scheduled final examination, lasting 2 hours and held in a classroom.

Tests and exams will not involve multiple choice questions.

Students who are unable to write the midterm because of an illness, family emergency or religious observance will have the midterm weight shifted to the final examination.

Documentation **MUST** be provided.

**R-E-S-P-E-C-T:** I assume that the reason you are attending my class is to endeavour to acquire an understanding of macroeconomics. It has been my experience that this task is made much easier and far more enjoyable for all involved (including me) if we can maintain a relaxed but respectful atmosphere in the classroom. For my part, maintaining such an atmosphere requires that I be respectful of your time, your questions, and your concerns. I will, therefore, strive to be on time for lectures and office hours, answer your questions in class as well as I can, and listen to your concerns. For your part, maintaining a respectful atmosphere requires that you avoid being late for class, that you refrain from leaving before the lecture ends, that you not talk when either I am speaking or one of your classmates is speaking, and that your cell phones are turned off during the class.

#### **Notes:**

- Students should be aware of the importance of appropriate sequencing of their courses to meet all the graduation requirements, especially in the Honours program. Honours students should complete MATH 249 or 251, and MATH 211 no later than the second year. This is very important because these courses are prerequisites for ECON 387/389, which in turn are prerequisites for ECON 557/559. Also, STAT 213 should be completed no later than the third year because it is a prerequisite for ECON 315, which in turn is a prerequisite for ECON 419. We suggest that you consult the "Department of Economics Explicit Syllabus", which is available at <http://econ.ucalgary.ca/programs/undergrad/ES.htm>, or the University of Calgary Calendar. If you want help in designing your program, you

should speak with a Student Advisor in the Department of Economics.

- Students seeking reappraisal of a piece of graded term work (term paper, essay, etc.) should discuss their work with the Instructor within *fifteen days* of the work being returned to the class.
- It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than fourteen (14) days after the start of this course.
