Course Description:

This is the second of the two intermediate-level macro theory courses (the first being ECON 303) that are required to major in Economics. This course introduces some basic models of long-term economic growth and builds a two-period macroeconomic model based on microeconomic foundations.

Course Objectives/Learning Outcomes:

The main objectives of this course are:

1. To study leading models of long-term economic growth
2. To construct a two-period macroeconomic model based on microeconomic foundations

4. To study open-economy macroeconomics using the two-period model

After completing this course, students are expected to be familiar with the leading theoretical models of economic growth. As per the Writing Across the Curriculum Statement in the Calendar, writing and grading thereof will be a factor in the evaluation of student work.

Any student work which remains undistributed after the last day of classes will be available to students through the instructor's office during his office hours.

The final examination will be comprehensive, scheduled by the Registrar, held in a classroom, and last 2 hours. If a student cannot write their final exam on the date assigned by the Registrar's Office, they need to apply for a deferred exam www.ucalgary.ca/registrar/exams/deferred_final. Under no circumstance will this be accommodated by the Department.

Tests and exams may involve multiple choice questions. Non-programmable calculators will be allowed during the writing of tests or final examinations.

The exact date for the in-class midterms will be announced at least one week in advance.

THERE WILL BE NO MAKEUP OR DEFERRED QUIZZES/TESTS/EXAMS under any circumstances, nor may the quizzes/tests/exams be written early. Students unable to write the quizzes/tests/exams because of documented illness, family emergency, religious observance, or university-sanctioned event will have the weight shifted to the final examination; otherwise a grade of zero will be assigned.
