Grade Determination and Final Examination Details:

There will be one midterm exam (worth 30%), a final exam (worth 30%), and weekly in-class quizzes (worth 40% in total).

The midterm exam and the weekly quizzes are designed to reward **diligence**. In particular, most students who diligently prepare for the weekly quizzes will go into the final exam with a sound mark, somewhere in the B to A range. On the other hand, students who do not take the time to prepare for the weekly quizzes will go into the final exam with a weak mark, or will have dropped the course well before the final exam.

The final exam is designed to reward **creative problem solving**. Students will find it significantly more difficult than the quizzes and midterm exam, and the average grade will be significantly lower, somewhere in the C range if past experience is any guide.

The midterm and final examinations and the weekly quizzes are marked on a numerical (percentage) basis, then converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, these letter grade equivalences will generally apply:

A+	96-100	B	76-80	C-	56-60
A	91-95	B-	71-75	D+	51-55
A-	86-90	C+	66-70	D	46-50
B+	81-85	C	61-65	F	00-45

A passing grade on any particular component of the course is not required for a student to pass the course as a whole.

Non-programmable calculators **WILL NOT** be allowed during the writing of tests or final examinations.

There will be a Registrar scheduled final examination, lasting **TWO** hours.

Tests and exams **WILL NOT** involve multiple choice questions.
