Course Description:

Economics 403 focuses on the taxation side of public finance (Economics 401 deals with the expenditure side). The course will emphasize the basic tools that economists employ to evaluate and determine the effects of taxes. Particular attention will be paid to the incentive effects of taxation on behaviors like labour supply, saving, investment, etc. Each segment of the course will consist of institutional facts and development of the economic theory required to understand the issues, followed by a summary of the relevant empirical evidence. The course will follow a fairly pragmatic, policy oriented approach. By the end of the course you should be able to understand and critically evaluate issues related to tax policy from an economic perspective.
