Course Outline:

This course examines how variables and institutions with international linkages influence an economy's macroeconomic behaviour. Throughout the semester students will be presented with specific theoretical analysis: balance of payments, the role of money and relative interest rates, exchange rate models/regimes and their effect on price levels and output. In addition, theories will be analyzed within the context of current policy-oriented issues in open economy macroeconomics. Examples include the choice of exchange rate regimes such as dollarization, currency boards, currency baskets and monetary unions as well as the causes of currency crises.

The course includes, but is not limited to, the following content:

<u><i>General Topic</i></u>	<u><i>Chapters in Feenstra & Taylor</i></u>
Introduction	Chapter 1
Exchange Rates, Models of Exchange Rate Determination	Chapter 2-4
Balance of Payments Issues	Chapter 5 & 6

Monetary & Fiscal Policy (Fixed vs. Floating Exchange Rates)	Chapter 7

Quizzes

There will be three quizzes throughout the term; each quiz will be 60 minutes in length and may consist of theoretical, mathematical, graphical, applied, and/or “readings” questions. ***Make-up quizzes will not be given.*** In cases of documented illness, documented family emergency, or documented religious observance, the weight of the quiz will be equally divided between remaining quizzes (or allotted to the final examination in the case of quiz #3).

Group Presentation

Groups (minimum of four and maximum of five) will present an international finance topic at the end of the semester. Specifically, the presentation examines a nation that has faced a monetary and/or macroeconomic crisis (massive currency devaluation, default on loans, creation of a currency board/dollarization, hyperinflation, *etc.*). The framework and expectations of these presentations will be discussed in class.

Final Exam

The final exam is cumulative and is 2 hours as scheduled by the Registrar’s office. More information will be provided towards the end of the term.

Blackboard:

I use the course BlackBoard site to post announcements and readings as well as the solutions to the quizzes. Students are responsible for monitoring the BlackBoard site on a regular (i.e., weekly) basis.

Grade Determination:

All assessments are marked on a numerical (percentage) basis and converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, these letter grade equivalencies will generally apply:

A+	95 – 100	B	74 – 76	C-	60 – 63
A	88 – 94	B-	70 – 73	D+	56 – 59
A-	83 – 87	C+	67 – 69	D	50 – 55
B+	77 – 82	C	64 – 66	F	0 – 49

Notes:

Students seeking reappraisal of a quiz should discuss their work with the Instructor *within fifteen days* of the work being returned to the class.
