

Department of Economics Faculty of Arts

Economics 425(L01) International Trade

Instructor: M. Scott Taylor

Phone: 403-220-8912

Lecture Location: Online via Zoom

Lecture Days/Time: WF 2:00-3:15

Email: mstaylor@ucalgary.ca

Office: Zoom office hours

Office hours: Wednesday 3:30-4:30 Winter 2022

This course provides an atypical introduction to international economics focusing on international trade in goods by focusing on current policy debates. In discussing the policy debates, you will learn about the costs and benefits of international trade, the impact of trade policy measures on incomes and welfare, and gain some familiarity with current topical issues such as: the impact of China's accession to the WTO on world markets; why the US and China are in an undeclared trade war over the protection of intellectual property rights; what is trade's impact on the environment; and what is the relationship between the trade protection industries get and their lobbying efforts. Writ large, the course examines the nature, causes and consequences of international trade to provide the basis for analyzing aspects of trade policy.

Course Objectives/Learning Outcomes: By the end of this course the student will have a very good understanding of the determinants of world trade patterns and the volume of trade flows. They will understand the positive and normative implications of international trade for citizens and understand the incentives governments have to intervene in international markets. They will also understand how international trade can affect the employment and wages of workers, how it affects environmental outcomes, and how international trade and intellectual property rights protection interact.

Course Outline:

I have organized the material around some very topical trade policy issues. My plan is to spend three weeks discussing and evaluating each issue. Three weeks gives us six lectures to ask and then answer the question under study. I am hoping to stick to the three-week window for each topic, but it is possible we either run out of time (and leave one issue untouched) or world events intervene making us spend more time on one topic than another. If we do complete our discussion of four issues, and then include some time for review sessions and a midterm, we will have pretty well exhausted all the course time. In addition, I may invite one or two guest speakers to the class who are experts in one of the areas.

Each of the four sections or modules will proceed in much the same way, and there are four elements to each section.

First, there will be an video from YouTube (or similar) introducing the issue (often courtesy of Trump), together perhaps with some discussion by others (perhaps a clip from the PBS news hour).

Second, there is the lecture material I will provide that gives us the logical framework with which we can discuss the issue. This material is also presented in the book, although my presentation will differ

substantially and will be tailored of course to the issue at hand. You will be responsible not only for the lecture material presented in class, but also the material in the Chapters assigned in class. For example, the course starts with a discussion of comparative advantage and the elegant model put forward by David Ricardo over 200 years ago. Ricardo's model is the perfect vehicle with which to discuss how differences in technologies across countries affect trade flows, national incomes, and welfare. It is also perfect for a discussion of how the transfer of technology across countries — perhaps accelerated by weak intellectual property rights — creates winners and losers in the global economy. And hence this is how we will frame a discussion of the current dispute between the U.S. and China over intellectual property rights.

Third, trade policy discussions are often full of all kinds of minutiae and detail that the book does not cover and I am not an expert on. To fill this gap, I will typically ask you to listen to one or more podcasts from "Trade Talks" from the Peterson Institute at https://piie.com/trade-talks. These are short, very informative, and very detailed discussions of trade policy issues.

Fourth, with the completion of every section (except the last one) there will be an assignment for you to do that will reinforce the material and hopefully prepare you for the examinations.

The four modules are, in brief, organized around the following trade policy issues:

- 1. Intellectual Property Rights and Trade (Chapters 1 and 2)
- 2. Why Economists and Environmentalists disagree: trade vs the environment (Chapter 13).
- 3. Special Interests, Trade Policy and the CDN dairy industry (Chapter 5)
- 4. The China Shock: factor flows and rising wage inequality (Chapter 6)

Required Textbook(s):

<u>International Trade</u> John McLaren Wiley 2013 ISBN-13: 978-0-470-40879-7. The book comes with a full set of slides, practice questions and some quizzes all which will be made available to the students. My lectures will broadly follow the book, but will include more technical and difficult material and will require a more in depth understanding of the arguments that is present in the book or the slides. The Chapter references above are what is currently planned, but I may alter the order of presentation order somewhat.

Additional materials will be available on D2L. For each of the topics we discuss I will require you to read at least one additional outside reading. These will be academic articles that we will discuss in class, with my help. Just reading the book and slides will not be a good strategy to pass the course.

Books on Reserve:

None

Prerequisites/corequisites: ECON 357, 359, and 395.

Recommended Textbook(s):

None

Books on Reserve:

None

Desire2Learn: This course will make use of the Desire2Learn (D2L) platform. Students who are registered in the course can log on at http://d2l.ucalgary.ca through their student centre. Please note that D2L features a class e-mail list that may be used to distribute course-related information. These e-mails go to your University of Calgary e-mail addresses only. Lectures:

Lectures will be delivered online at the Registrar scheduled times.

Grade Determination and Final Examination Details:

There will be two examinations. One will be a typical in-class midterm, and the other is a final exam scheduled by the Registrar. Both tests will share the same format. The midterm will be on Wednesday the 16th of February. This timed assessment will be available on D2L at the beginning of class on Feb 16th and will be available for 24 hours. When you access the assessment, you will have the length of the class 75 minutes plus 30 minutes to complete and submit it. This assessment will consist of analytical questions and an essay question. If you experience an issue that affects your ability to complete the assessment, which can include (but is not limited to) issues with technology, caregiving responsibilities, or distractions within your test-taking environment, you will need to contact your instructor as soon as possible to arrange an alternate or (in the case of technical issues) extended time to write the assessment. The final exam will follow the same format as the midterm but will be scheduled by the Registrar.

Both exams will contain both analytical problem-solving questions and an essay question.

The analytical questions require you to manipulate and make use of economic modelling in a precise and mathematical way. The essay question will feature an introductory prompt I provide and require you to write a cohesive essay responding to the prompt. The essay must be a proper essay – no point form, logically written, and must make use of the materials learnt in the course. An essay is not an opinion piece, it is a logical argument and a good essay is no less precise in its construction than is an answer to a purely analytical question. The essay component and analytical components will each be worth 50% of the grade in any exam (including the final), so essay writing and analytical skills will both be required to do well in the course.

In addition, there will be a series of assignments due during the year. I plan on four assignments. Several of the assignments will contain review questions from microeconomics as well as questions regarding specific course material. These assignments will have due dates (approximately 10 days from receiving them) and will be marked and returned to the students. Answer keys for the assignments will be provided.

Midterm	30%
Assignments	25%
Final Exam	45%
	100%

Grading Scale

As per the Writing Across the Curriculum Statement in the Calendar, writing and grading thereof will be a factor in the evaluation of student work.

Non-programmable calculators WILL be allowed during the writing of tests or final examinations.

Tests and exams WILL NOT involve multiple choice questions.

The official grading system will be used. See http://www.ucalgary.ca/pubs/calendar/current/f-1-1.html. If a student's letter grade on the final exam exceeds their midterm(s) letter grade, the weight of the midterm(s) may be transferred to the final exam at the discretion of the instructor. The student must have written the midterm(s) or provided supporting documentation for the absence(s) such as a medical note or statutory declaration.

If a student cannot write their final exam on the date assigned by the Registrar's Office, they need to apply for a deferred examhttps://www.ucalgary.ca/pubs/calendar/current/g-6.html.

THERE WILL BE NO MAKEUP OR DEFERRED QUIZZES/TESTS/EXAMS under any circumstances, nor may the quizzes/tests/exams be written early. Students unable to write the quizzes/tests/exams because of documented illness, family emergency, religious observance, or university-sanctioned event will have the weight shifted to the remaining exams; otherwise a grade of zero will be assigned. Documentation MUST be provided.

Reappraisal of Grades:

For Reappraisal of Graded Term Work, see Calendar I.2 http://www.ucalgary.ca/pubs/calendar/current/i-2.html

For Reappraisal of Final Grade, see Calendar I.3 http://www.ucalgary.ca/pubs/calendar/current/i-3.html

Academic Misconduct:

Academic Misconduct refers to student behavior that compromises proper assessment of students' academic activities and includes: cheating; fabrication; falsification; plagiarism; unauthorized assistance; failure to comply with an instructor's expectations regarding conduct required of students completing academic assessments in their courses; and failure to comply with exam regulations applied by the Registrar.

Student committing academic misconduct during the final exam will not receive a passing grade for the course.

For information on the Student Academic Misconduct Policy, Procedure and Academic Integrity, please visit: https://www.ucalgary.ca/pubs/calendar/current/k-3.html

Academic Accommodations:

Students seeking an accommodation based on disability or medical concerns should contact Student Accessibility Services. SAS will process the request and issue letters of accommodation to instructors. Students who require an accommodation in relation to their coursework based on a protected ground other than disability should communicate this need in writing to their instructor. The full policy on Student Accommodations is available at

https://www.ucalgary.ca/legal-services/university-policies-procedures/accommodation-students-disabilities-procedure

Freedom of Information and Protection of Privacy (FOIP) Act:

Personal information is collected in accordance with FOIP. Assignments can only be returned to the student and will be accessible only to authorized faculty and staff. For more information, see https://www.ucalgary.ca/legal-services/access-information-privacy

Copyright Legislation:

See the University of Calgary policy on Acceptable Use of Material Protected by Copyright at https://www.ucalgary.ca/legal-services/university-policies-procedures/acceptable-use-material-protected-copyright-policy Students who use material protected by copyright in violation of this policy may be disciplined under the Non-Academic Misconduct Policy.

Course materials created by instructors (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the instructor. These materials may NOT be reproduced, redistributed or copied without the explicit consent of the instructor. The posting of course materials to third party websites such as note-sharing sites without permission is prohibited. Sharing of extracts of these course materials with other students enrolled in the course at the same time may be allowed under fair dealing.

Recording of Lectures:

Recording of lectures is prohibited, except for audio recordings authorized as an accommodation by SAS or an audio recording for individual private study and only with the written permission of the instructor. Any unauthorized electronic or mechanical recording of lectures, their transcription, copying, or distribution, constitutes academic misconduct. See https://www.ucalgary.ca/pubs/calendar/current/e-6.html.

Important Dates:

Please check: http://www.ucalgary.ca/pubs/calendar/current/academic-schedule.html.

Student Organizations:

Faculty of Arts Students' Association (F.A.S.A.):

Economics Department Representative

E-mail: econrep@fasaucalgary.ca Website: www.fasaucalgary.ca.

Society of Undergraduates in Economics: https://www.ucalgarysue.com/.

Society of Undergraduates in Economics is a student run organization whose main purpose is to assist undergraduate economics students to succeed both academically and socially at the University of Calgary. Services include access to the exam bank, career events such as Industry Night and information sessions, mentorship programs, and social events for members. They invite you to join by contacting SUE at societyofundergradsineconomics@gmail.com.

Faculty of Arts Program Advising and Student Information Resources:

- Have a question, but not sure where to start? The Arts Students' Centre is your information
 resource for everything in Arts! Drop in at SS102, call them at 403-220-3580, or email them at
 artsads@ucalgary.ca. You can also visit the Faculty of Arts website at
 http://arts.ucalgary.ca/undergraduate, which has detailed information on common academic
 concerns, including program planning and advice.
- For registration (add/drop/swap), paying fees and assistance with your Student Centre, contact Enrolment Services at 403-210-ROCK [7625] or visit them in the MacKimmie Tower.

Student Support and Resources:

- See https://www.ucalgary.ca/registrar/registration/course-outlines for information on campus mental health resources, the Student Ombuds Office, Student Success Centre, Safewalk, and Emergency Evacuation and Assembly.
- Online writing resources are available at https://ucalgary.ca/student-services/student-services/student-success/writing-support.
