

Economics 599 (L01) Applied Econometrics Data Solution

Instructor: Alex Whalley
Email: alexander.whalley@ucalgary.ca

Lecture Location: ZOOM delivery
Lecture Days/Time: MWF 8-8:50AM

Office: ZOOM delivery
Office Hours: Wed 9-11am

Course Description:

Students will apply econometrics methods to data to develop a solution to an economic resource allocation problem. Principles of project management and applications in economics data projects will be introduced. The completion of a group project, under the supervision of a faculty member, on an assigned economics data topic will be required. The project will normally involve data review, theoretical work, and econometric analysis. Submission and defense of progress reports and a final report are required.

Course Objectives/Learning Outcomes:

At the end of the course students will be able to:

- (1) Design and plan a project, and carry the project through to completion working in a team environment
- (2) Solve design problems in the project by synthesizing skills learned in a variety of courses taken during the course of the Economics degree program.
- (3) Communicate effectively within the team, with the advisor, and with the Course Coordinator.

Prerequisites/corequisites:

Econ 599/611 assumes familiarity with the material covered in Econ 495 and Stats 213, including proficiency at mathematical statistics and calculus. Students should also have proficiency with Python software. A list of recommended on-line courses to demonstrate Python proficiency is available from the instructor.

Required Textbook(s):

None

Recommended Textbook(s):

Taddy, Mathew (2019) *Business Data Science: Combining Machine Learning and Economics to Optimize, Automate, and Accelerate Business Decisions* McGraw-Hill Education; 1 edition

Online Delivery:

This course will be delivered online. Students are expected to be able to participate online in accordance with this Course Outline. Lectures, assignments, office hours, exams, readings and other course material, etc. all require online access and this access is the responsibility of the student.

In order to remotely participate in online courses, students will need to have: computer with a current and updated operating system (macOS or Windows will work with all university-supported online learning technologies), a current and updated web browser installed – the latest versions of Firefox, Safari, Chrome or Edge will help to avoid compatibility issues, secure and reliable internet, microphone / headphones, webcam (optional), scanner (or camera to scan your work). The course will also require R and/or Python software.

Desire2Learn:

This course will make use of the Desire2Learn (D2L) platform. Students who are registered in the course can log on at <http://d2l.ucalgary.ca> through their student centre. Please note that D2L features a class e-mail list that may be used to distribute course-related information. These e-mails go to your University of Calgary e-mail addresses only.

Lectures:

Lectures will be delivered online at the Registrar scheduled times and delivered using ZOOM. The lectures will be recorded and subsequently posted to D2L.

Grade Determination:

PROJECT PLAN	18%
PROGRESS REPORT 1	14%
PROGRESS REPORT 2	14%
FINAL REPORT AND VIDEO	34%
PRESENTATIONS AND PARTICIPATION	<u>20%</u>
	100%

The official grading system will be used. See <http://www.ucalgary.ca/pubs/calendar/current/f-1-1.html>.

A passing grade on any particular component of the course is not required for a student to pass the course as a whole.

As per the Writing Across the Curriculum Statement in the Calendar, writing and grading thereof will be a factor in the evaluation of student work.

All other course components will also be accessed, submitted, and returned through D2L.

The final project will be due on the first day of the exam period April 19th at 5pm.

Students who are unable to attend the synchronous zoom lectures may submit their presentations by video.

THERE WILL BE NO MAKEUP OR DEFERRED EVALUATIONS under any circumstances, nor may the evaluation materials be written early. Students unable to write the evaluation material because of documented illness, family emergency, religious observance, or university-sanctioned event will have the weight shifted to the final project report; otherwise a grade of zero will be assigned.
