

Department of Economics Course Outline

		Term:	Fall 2006
Course:	Economics 657 [Microeconomic Theory]	Section:	01
Time:	TR 09:00 ? 10:15	Place:	SS 423
Instructor:	M. Scott Taylor		
Office:	SS 428	Telephone:	220-8912
Office Hours:	T 16:30 ? 17:30	E-Mail:	mstaylor@ucalgary.ca

Textbook(s):

Andreu Mas-Colell, Michael D. Whinston and Jerry R. Green, *Microeconomic Theory*, Oxford University Press, 1995

Book(s) on Reserve

: None

Course Outline:

This is a course in Microeconomic theory. The goal of the course is to give you a solid grounding in the theory of consumer choice and producer behaviour while giving you some familiarity with equilibrium outcomes in competitive markets. The course is pure theory, with no empirical component. It covers the logical skeleton of microeconomics and to ensure we have a good understanding of this skeleton the course will focus on definitions, propositions and proofs. Don't look for real world applications or for reasons why you need to know how to prove a claim is true ? my job is to give you a set of tools for you to employ in field courses where more applied topics are taught.

Coverage and Book:

The course will cover approximately 10 chapters in Mas-Colell, Whinston and Greens? Microeconomic Theory (Oxford Univ. Press, 1995). The book is available in the bookstore for you to purchase and the course will follow the book quite closely. I say approximately 10 chapters because some sections of some chapters will be skipped. You should also read the mathematical appendix to this book during the course. I would start reading now. The order of events is as follows:

Consumer Theory

Chapter 1. Individual decision making

Chapter 2. Consumer choice

Chapter 3. Classical demand Theory

Chapter 4. Aggregate demand
Producer Theory

Chapter 5. Production

Chapter 15, part D.

Uncertainty

Chapter 6. Choice under Uncertainty
Game Theory and Strategic Interaction

Chapter 7, 8.

Equilibrium outcomes

Chapter 10.

Chapter 15, the remainder.

Grade Determination and Final Examination Details:

All students must comply with the regulations published in the University Calendar concerning "Intellectual Honesty," "Examinations," etc. Students will normally be evaluated in accordance with the marking scheme given below:

There will be three midterms all given in class. The dates for the midterms are as follows: Thursday October 5th, Tuesday November 7th, and Thursday December 7th. Each midterm will be worth 30% of your final grade. There will be no make up exams, and failure to show up for a test earns a zero.

Six assignments will be given in class and must be handed in for marking. These assignments will represent the remaining 10% of your mark. All assignments must be handed in by all individuals in class, including anyone who is auditing or just sitting in for fun. In addition, please note: A PASSING GRADE ON THE ASSIGNMENT IS A NECESSARY CONDITION FOR PASSING THE COURSE (i.e. obtaining a grade above F). The assignment questions will come out of Mas-Colell, Whinston and Green together with other problems I choose to include.

I have coordinated the assignments dates with Econ 659 so that you do not have two assignments due at the same time. There are however some weeks when you will both have an assignment due and a midterm so you need to plan ahead accordingly. You have one week to complete each assignment.

Assignment 1. September. 12th, due September 19th.

Assignment 2. September. 26th, due October. 3rd

- Assignment 3. October 10th, due October 17th
- Assignment 4. October. 24th, due October 31st.
- Assignment 5. November 7th, due November 14th
- Assignment 6. November 21st, due November 28th

Tests and final exams are marked on a numerical (percentage) basis, then converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, the following letter grade equivalence will generally apply:

A+	95-100	B	74-76	C-	60-63
A	87 - 94	B-	70-73	D+	56-59
A-	82-86	C+	67-69	D	50-55
B+	77-81	C	64-66	F	<50

If, for some reason, the distribution of grades determined using the aforementioned conversion chart appears to be abnormal the instructor reserves the right to change the grade conversion chart if the instructor, *at the instructor's discretion*, feels it is necessary to more fairly represent student achievement.

Students must successfully complete all components of the course to successfully complete the course. Any work which is not attempted and submitted will be assigned a grade of zero.

Notes:

- Students seeking reappraisal of a piece of graded term work (term paper, essay, etc.) should discuss their work with the Instructor within *fifteen* days of the work being returned to the class.
- It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than fourteen (14) days after the start of this course.
