We apply game theory to analyze strategic and informational issues. The more detailed course description follows in the first week of the course.

### Course Outcomes:

By the end of the course, students will be able to solve for and characterize the properties of the equilibria of standard models in game theory and information economics, as well as apply the tools of microeconomic theory to interesting problems in economics.

### Course Outline:

2. Simultaneous Games of Incomplete Information
3. Extensive Games of Complete Information

**Desire2Learn:**

This course will make use of the Desire2Learn (D2L) platform. Students who are registered in the course can log on at <http://d2l.ucalgary.ca> through their student centre. Please note that D2L features a class e-mail list that may be used to distribute course-related information. These e-mails go to your University of Calgary e-mail addresses only.

**Grade Determination/Assessment:**

TWO MIDTERM EXAMS	30%
FINAL EXAMINATION	50%
ASSIGNMENTS	<u>20%</u>
	100%

**Grade Determination and Final Examination Details**

Department of Economics Criteria for Letter Grades. Economics professors use the following criteria when assigning letter grades:

Grade	Grade Point Value	Description
A+	4.00	Outstanding
A	4.00	Excellent-superior performance, showing-comprehensive understanding of subject matter
A-	3.70	Very good performance
B+	3.30	Good performance
B	3.00	Satisfactory performance
B-	2.70	Minimum pass for students in the Faculty of Graduate Studies
C+	2.30	All grades below "B-" are indicative of failure at the graduate level and cannot be counted toward Faculty of Graduate Studies course requirements. Individual programs may require a higher passing grade.

A letter grade will be assigned to each component (assignments, midterm, final), and the associated grade point values will be used to calculate a final grade using the weights indicated above. A passing grade on at least 50% of the course work (according to the weights above) is required to pass the course.

There will be a department scheduled final examination, held in a classroom, lasting 2 hours. Non-programmable calculators will be allowed during the writing of tests or final examinations.

Tests and exams will not involve multiple choice questions.

The dates for the midterm exams will be announced on the first day of the class.

**Absence from a Test/Exam**

THERE WILL BE NO MAKEUP OR DEFERRED QUIZZES under any circumstances, nor may the quizzes be written early. Students unable to write the quizzes because of documented illness, family emergency, religious observance, or university-sanctioned event will have the weight shifted to the final examination; otherwise a grade of zero will be assigned. If a student cannot write their final exam on the date assigned by the Department, they need to arrange for a deferred exam with the department.
