Course Description

https://www.ucalgary.ca/pubs/calendar/current/architectural-studies.html#38564

Sustainable development has historically been defined (Brundtland, 1987) as “development that meets the needs of the present without compromising the ability of future generations to meet their own needs.” Sustainability as a concept and practice proves complex, challenging and vital. This course is structured to present a wide array of viewpoints on key ideas concerning sustainability in the built environment. The course will be presented through lectures, workshops, international and Canadian case studies, guest lectures, and individual & group assignments /presentations aimed at gaining a wide & rich understanding of this at times complicated concept. Guest lectures will be delivered by academics and professionals versed and active in realms of sustainability. Students are expected to critically consider the range of approaches being discussed in our classes and to begin to formulate, delineate & articulate their own positions.

Content: Selected Topic Areas

- Overview of Sustainability (especially considering Architecture & Environmental Design)
- Climate change | Human effects | GHG emissions
- Sustainable development | Sustainable site planning and Analysis
- Energy | Resources
- Sustainable neighborhood design | Natural flow | Ecology | Landscapes
- Sustainable building initiatives (Green Buildings, PassiveHaus, NZEB)
- Refurbishment for sustainability
- Building materials & building construction and their environmental impact
- Sustainable building services | Smart technologies
- Measuring sustainability | Environmental Quality | Integration
Course Hours: 3 units

Online Delivery (If applicable)

This course will take place via blended delivery online (on Fridays) via Desire2Learn (D2L) and Zoom. Students are required to participate in the asynchronous learning tasks using the D2L learning environment and synchronous Zoom sessions. If unable to participate live due to unforeseen circumstances, inform the instructor in advance to work out an alternative participation activity.

Course Learning Outcomes

Upon completion of this course, students will know and be able to:
1. To demonstrate understanding of theories, principles and practices focused on sustainability in the built environment
2. To provide straightforward and practical examples of how sustainability can be achieved
3. To analyze site and neighborhood designs according to principles for planning sustainable and efficient neighborhoods
4. To analyze sustainability measures in buildings including energy and resource efficiency.
5. To formulate personal and professional positions concerning sustainability

Learning Resources

Required readings, textbooks and learning materials:
Alison Cotgrave; Mike Riley Total Sustainability in the Built Environment, Palgrave Macmillan, 2012.

In addition, list of readings related to selected topics will be posted periodically on D2L

Technology requirements (D2L etc.): In order to successfully engage in their learning experiences at the University of Calgary, students taking blended courses are required to have reliable access to the following technology:
- A computer with a supported operating system, as well as the latest security, and malware updates;
- A current and updated web browser;
- Webcam (built-in or external);
- Microphone and speaker (built-in or external), or headset with microphone;
- Current antivirus and/or firewall software enabled;
- Broadband internet connection
- Student IT Resources

Most current laptops will have a built-in webcam, speaker and microphone.
### Guidelines for Zoom Sessions in Online Classes

Students are expected to participate actively in all Zoom sessions and to turn on their webcam. Please join our class in a quiet space that will allow you to be fully present and engaged in the Zoom sessions. Students must behave in a professional manner during the session. Students, employees, and academic staff are also expected to demonstrate behaviour in class that promotes and maintains a positive and productive learning environment.

### Assessment Components

<table>
<thead>
<tr>
<th>Assessment Method</th>
<th>Description</th>
<th>Weight</th>
<th>Aligned Course Learning Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project</td>
<td><strong>Site Planning + Design (Group + individual component):</strong> The term project is a group project with individual component (15% of the grade). The project consists of an exercise of application of sustainable design (details will be provided), to sites and buildings. The project aligns with the course outcomes 1-5, and will be formed of 3 parts: 1. Project preparation including initial concepts and directives (with brief midterm presentation and report) 2. A final project presenting all the analysis, with submitted report (on D2) and full presentation by groups. 3. An individual part discussing the part done by each individual from the group, and the perspective of this individual on the designed attained, and lessons learned from this (details will be provided in the project).</td>
<td>40%</td>
<td>1-5</td>
</tr>
<tr>
<td>Project Presentation</td>
<td>Group presentation of the project</td>
<td>15%</td>
<td></td>
</tr>
<tr>
<td>Sustainability Framework Paper (Individual)</td>
<td>The paper is an individual assignment. It covers all outcomes identified above. Students are required to discuss and analyze a specific sustainability issue. Details will be provided early in the term.</td>
<td>30%</td>
<td>1-5</td>
</tr>
</tbody>
</table>
Student participation: Participation in this class, including class discussions, giving written feedback on presentations of other students (peer review for projects), group work in class, and thread discussions will form 15% of the total student grade. This participation has proven to be very important in this class, as it contributes significantly to enrich the experience of all students.

<tr>
<td>C+</td>
</tr>
</tbody>
</table>
A student who receives a "C" or lower in any one course will be required to withdraw regardless of their grade point average (GPA) unless the program recommends otherwise. If the program permits the student to retake a failed course, the second grade will replace the initial grade in the calculation of the GPA, and both grades will appear on the transcript.

(for Architecture courses only) CACB Student Performance Criteria

The following CACB Student Performance Criteria will be covered in this course at a primary level (other criteria will be covered at a secondary level): A1. Critical Thinking Skills; A6. Human Behaviour, B3. Site Design, and B4. Sustainable Design. (see CACB SPC matrix for further details)

Topic Areas & Detailed Class Schedule

Include information relevant to the class schedule, such as weekly topics, readings, and assignment due dates. For online, remote or blended courses include whether course activities are synchronous (i.e., real-time/Zoom) and asynchronous (i.e., students complete on their own time such as discussion boards, watching videos, etc.). It is recommended that important dates including the first day of classes, holidays, term breaks and last day of classes also be included.

<table>
<thead>
<tr>
<th>Course Schedule Date</th>
<th>Topic</th>
<th>Assignments/Due Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sept 7 - 10</td>
<td>L1- Introduction to sustainability: overview of sustainability, global climate change, human activities and their effects, GHG emissions, universal efforts to increase sustainability- introducing term project</td>
<td></td>
</tr>
<tr>
<td>Sept 13 - 17</td>
<td>L2- Three pillars of sustainability; Concepts of sustainable development and sustainable urbanism; Sustainable site planning (1)- introduction. Project discussion.</td>
<td></td>
</tr>
<tr>
<td>Sept 20 - 24</td>
<td>L3- Site planning (2), Principles of site analysis, Improving sustainability of a site (e.g. stormwater, reducing site disturbance, vegetation)</td>
<td></td>

<tr>
<td>Nov 1 - 5</td>
<td>L7- Energy use and GHG emissions,-Life Cycle Assessment (LCA); Measuring sustainability; Critical comparison of sustainability frameworks</td>
<td></td>
</tr>
<tr>
<td>Nov 8 – 12</td>
<td>No classes – term break</td>
<td></td>
</tr>
<tr>
<td>Nov 15 - 19</td>
<td>L8 - Real Life Project Examples; Open Discussion/Questions and Answers for Term Assignments.</td>
<td></td>
</tr>
<tr>
<td>Nov 22 - 26</td>
<td>Term Project- Students’ presentations</td>
<td>Term Project and presentation submission (on D2L), by 8 am, November 23, before class</td>
</tr>
<tr>
<td>Nov 29 – Dec 3</td>
<td>Term Project- Students’ presentations-continued</td>
<td></td>
</tr>
<tr>
<td>Dec 6 – 8</td>
<td>December 7 Course recap Dec 8 - last day of classes</td>
<td>December 6, Individual Paper submission, 11:59pm</td>
</tr>
</tbody>
</table>

Indicate the following dates:
- If applicable, dates, times and locations of all approved class activities scheduled outside of regular course hours
Guidelines for Zoom Sessions

Zoom is a video conferencing program that will allow us to meet at specific times for a “live” video conference, so that we can have the opportunity to meet each other virtually and discuss relevant course topics as a learning community.

To help ensure Zoom sessions are private, do not share the Zoom link or password with others, or on any social media platforms. Zoom links and passwords are only intended for students registered in the course. Zoom recordings and materials presented in Zoom, including any teaching materials, must not be shared, distributed or published without the instructor’s permission.

The use of video conferencing programs relies on participants to act ethically, honestly and with integrity; and in accordance with the principles of fairness, good faith, and respect (as per the Code of Conduct). When entering Zoom or other video conferencing sessions (such as MS Teams), you play a role in helping create an effective, safe and respectful learning environment. Please be mindful of how your behaviour in these sessions may affect others. Participants are required to use names officially associated with their UCID (legal or preferred names listed in the Student Centre) when engaging in these activities. Instructors/moderators can remove those whose names do not appear on class rosters. Non-compliance may be investigated under relevant University of Calgary conduct policies (e.g Student Non-Academic Misconduct Policy). If participants have difficulties complying with this requirement, they should email the instructor of the class explaining why, so the instructor may consider whether to grant an exception, and on what terms. For more information on how to get the most out of your zoom sessions visit: https://elearn.ucalgary.ca/guidelines-for-zoom/

If you are unable to attend a Zoom session, please contact your instructor in advance to arrange an alternative activity for the missed session (e.g., to review the recorded session). Please be prepared, as best as you are able, to join class in a quiet space that will allow you to be fully present and engaged in Zoom sessions. Students will be advised by their instructor when they are expected to turn on their webcam (for group work, presentations, etc.).

The instructor may record online Zoom class sessions for the purposes of supporting student learning in this class – such as making the recording available for review of the session or for students who miss a session. Students will be advised before the instructor initiates a recording of a Zoom session. These recordings will be used to support student learning only and will not be shared or used for any other purpose.

University of Calgary Policies and Supports

ACADEMIC ACCOMMODATION
It is the student’s responsibility to request academic accommodations according to the University policies and procedures listed below. The student accommodation policy can be found at: https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Student-Accommodation-Policy.pdf

Students needing an accommodation because of a disability or medical condition should communicate this need to Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities: ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Accommodation-for-Students-with-Disabilities-Procedure.pdf

Students needing an accommodation in relation to their coursework or to fulfil requirements for a graduate degree, based on a Protected Ground other than Disability, should communicate this need, preferably in writing, to their instructor (contact information on first page above).
SAS will process the request and issue letters of accommodation to instructors. For additional information on support services and accommodations for students with disabilities, visit www.ucalgary.ca/access/.

ACADEMIC MISCONDUCT
Academic Misconduct refers to student behavior which compromises proper assessment of a student’s academic activities and includes: cheating; fabrication; falsification; plagiarism; unauthorized assistance; failure to comply with an instructor’s expectations regarding conduct required of students completing academic assessments in their courses; and failure to comply with exam regulations applied by the Registrar.

Additional information is available on the Academic Integrity Website at https://ucalgary.ca/student-services/student-success/learning/academic-integrity.

COPYRIGHT LEGISLATION:
All students are required to read the University of Calgary policy on Acceptable Use of Material Protected by Copyright (www.ucalgary.ca/policies/files/policies/acceptable-use-of-material-protected-by-copyright.pdf) and requirements of the copyright act (https://laws-lois.justice.gc.ca/eng/acts/C-42/index.html) to ensure they are aware of the consequences of unauthorised sharing of course materials (including instructor notes, electronic versions of textbooks etc.). Students who use material protected by copyright in violation of this policy may be disciplined under the Non-Academic Misconduct Policy (https://www.ucalgary.ca/pubs/calendar/current/k.html).

INSTRUCTOR INTELLECTUAL PROPERTY
Course materials created by instructors (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the instructor. These materials may NOT be reproduced, redistributed or copied without the explicit
consent of the instructor. The posting of course materials to third party websites such as note-sharing sites without permission is prohibited. Sharing of extracts of these course materials with other students enrolled in the course at the same time may be allowed under fair dealing.

FREEDOM OF INFORMATION AND PROTECTION OF PRIVACY
Student information will be collected in accordance with typical (or usual) classroom practice. Students’ assignments will be accessible only by the authorized course faculty. Private information related to the individual student is treated with the utmost regard by the faculty at the University of Calgary.

SEXUAL VIOLENCE POLICY
The University recognizes that all members of the University Community should be able to learn, work, teach and live in an environment where they are free from harassment, discrimination, and violence. The University of Calgary’s sexual violence policy guides us in how we respond to incidents of sexual violence, including supports available to those who have experienced or witnessed sexual violence, or those who are alleged to have committed sexual violence. It provides clear response procedures and timelines, defines complex concepts, and addresses incidents that occur off-campus in certain circumstances. Please see the policy available at https://www.ucalgary.ca/policies/files/policies/sexual-violence-policy.pdf

UNIVERSITY STUDENT APPEALS OFFICE: If a student has a concern about the course, academic matter, or a grade that they have been assigned, they must first communicate this concern with the instructor. If the concern cannot be resolved with the instructor, the student can proceed with an academic appeal, which normally begins with the Faculty. https://www.ucalgary.ca/secretariat/student-appeals

OTHER IMPORTANT INFORMATION
Please visit the Registrar’s website at: https://www.ucalgary.ca/registrar/registration/course-outlines for additional important information on the following:

- Wellness and Mental Health Resources
- Student Success
- Student Ombuds Office
- Student Union (SU) Information
- Graduate Students’ Association (GSA) Information
- Emergency Evacuation/Assembly Points
- Safewalk
