## Biography

A Registered Architect with over 25 years experience, Martin worked for Sturgess Architecture from 1993 – 1997, and GEC Architecture from 1997 to 2015, where he was a Partner from 2005 – 2015. Martin has had his own architecture and urban design practice since. Martin has a broad range of project experience from pre-inception through all phases of design and construction. His chief areas of specialization are in the fields of post-secondary educational facilities and public transit. In the past 10 years, Martin has led six major post-secondary building projects. He has also spent more than 12 consecutive years leading public transit projects, mainly in light rail transit. His other experience includes industrial and single- and multi-family residential projects
