## ADDITIONAL COURSE INFORMATION (subject to change)

### How to contact your instructors

Contact all your instructors via D2L. Use the email function within D2L. We will NOT answer emails that are sent directly to our email addresses. This is important because when you send an email through D2L it adds the name of the course to the subject line. This allows us to identify your emails easily in the flood of other emails we receive every day. Your professors will be instructing ~ 500 students this term so please appreciate that you may not receive a response immediately; furthermore, emails will be responded to during **weekday** hours (9:00am – 5:00pm). If possible we will respond to your question in class so that all participants can benefit from the discussion.

### Recommendations regarding the formality of your emails

We require that all emails sent to us be written formally. Consider these to be formal letters NOT TWEETS.

### Exams

There are three exams in this course:

1. Midterm exams (x2) **(30% each)**
  - a. They will each be a 50 minute exam conducted in class (see schedule)
  - b. The material examined will be explained in the lecture
  - c. The format will be exclusively multiple choice – expect 50 questions
2. Final exam **(40%)**
  - a. It will be a 2 hour exam scheduled by the registrar on the entire course
  - b. It will have two components:
  - c. 70% of the questions will cover material from Part IV (ie. Topics 9-12) (see schedule)
  - d. 30% of the questions will be from Parts I, II, and III
  - e. **Hint:** for this exam you should focus on those topics that have recurred in different parts of the course.
  - f. The format will be exclusively multiple choice

### Hints (how to excel in Geog 205):

1. Attend all lectures. Attendance is closely linked to success in any course.
2. Be ready to engage in the course material and ask questions. Consider forming a study group to make learning easier and more effective.
3. Textbook readings are intended to supplement and reinforce the concepts presented in the lecture, but ARE NOT substitutes for attending the lecture. Do not make the mistake of thinking that you can "just read the textbook" or "just attend the lectures and not read" and do well in the course.
4. D2L will be used extensively to communicate outside of lecture periods. All lectures, grades, and updates/corrections to the course materials will be provided on D2L. We suggest that you consult D2L every morning in the event of changes, cancellations etc.
5. Ask questions of your professors. That is why we are here. Your professors welcome discussion in class and will have office hours alongside their lectures and exams. We urge you to take advantage of these opportunities.

## **USRI**

At the University of Calgary, feedback provided by students through the Universal Student Ratings of Instruction (USRI) survey provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses ([www.ucalgary.ca/usri](http://www.ucalgary.ca/usri)). Your responses make a difference - please participate in USRI Surveys.

## **Writing across the Curriculum**

Writing skills are not exclusive to English courses and, in fact, should cross all disciplines. The University supports the belief that throughout their University careers, students should be taught how to write well so that when they graduate their writing abilities will be far above the minimal standards required at entrance. Consistent with this belief, students are expected to do a substantial amount of writing in their University courses and, where appropriate, members of faculty can and should use writing and the grading thereof as a factor in the evaluation of student work. The services provided by the Writing Support Services can be utilized by all undergraduate and graduate students who feel they require further assistance.

## **Principles of Conduct**

The University of Calgary Calendar includes a statement on the Principles of conduct expected of all members of the University community (including students, faculty, administrators, any category of staff, practicum supervisors and volunteers) whether on or off the University's property. This statement applies in all situations where the members of the University community are acting in their University capacities. All Members of the University Community have a responsibility to familiarize themselves with this statement which is available at: <http://www.ucalgary.ca/pubs/calendar/current/j-2.html>

## **Plagiarism**

Academic dishonesty is not an acceptable activity at the University of Calgary and students are **strongly advised** to read the Student Misconduct section in the University Calendar. Quite often, students are unaware of what constitutes academic dishonesty or plagiarism. The most common are 1) presenting another student's work as your own 2) presenting an author's work or ideas as your own without proper referencing and 3) using work completed for another course. This activity will not be tolerated in this course and students conducting themselves in this manner will be dealt with according to the procedures outlined in the calendar. <http://www.ucalgary.ca/honesty/plagiarism>

## **Academic Accommodations:**

It is the student's responsibility to request academic accommodations according to the university policies and procedures listed below. The student accommodation policy can be found at: [www.ucalgary.ca/policies/files/policies/student-accommodation-policy.pdf](http://www.ucalgary.ca/policies/files/policies/student-accommodation-policy.pdf)

Students needing an accommodation because of a Disability or medical condition should communicate this need to Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities. The procedure can be found at: [www.ucalgary.ca/policies/files/policies/procedure-for-accommodations-for-students-with-disabilities\\_0.pdf](http://www.ucalgary.ca/policies/files/policies/procedure-for-accommodations-for-students-with-disabilities_0.pdf)

Students needing an accommodation based on a Protected Ground other than Disability, should communicate this need, in writing, to the Instructor.

## **Freedom of Information and Protection of Privacy**

*FOIP:* The Freedom of Information and Protection of Privacy (FOIP) legislation disallows the practice of having students retrieve assignments from a public place, e.g., outside instructor's office, the department office, etc. Term assignments will be returned to students individually, during class or during the instructor's office hours; if students are unable to pick up their assignments from the instructor, they

provide the instructor with a stamped, self-addressed envelope to be used for the return of the assignment.

**Re: Posting of Grades and Picking-up of Assignments**

- All assignments will be handled through D2L or personally.
- Their own grades will be available to each student on D2L by password access. Grades will not be available at Geography's main office.

**Contact Information for Student and Faculty Representation**
