Additional Course Information

Communication and course etiquette:

Regarding e-mail and other communication with the Instructor and other students. Please make sure your e-mails are polite and respectful. Any abusive or disrespectful e-mails or other communication deemed so will be reported and you may face non-academic or academic misconduct if they are deemed to be abusive or bullying in nature.

The Instructor expects students to show up for class. If you missed important information it is best that you attempt to obtain that information from your peers. If it because of illness or other extenuating circumstances contact the Instructor during office hours, after class, or set up an alternate time to meet. Sending e-mails expecting long responses from your Instructor because of your absence may go unanswered. This is especially true immediately before exams when the information has been given multiple times in class or by e-mail to the class.

It is a student’s responsibility to follow the course schedule and the readings that have been detailed in the course schedule in the outline. This schedule might change through the term so make sure you follow these changes that may be outlined in class. The material in the readings, videos and the lectures **are all** testable material regardless if the material in the readings or videos were not covered in the lecture or the lecture covered different material that is not in the readings or videos. Keep in mind as well that lecture slides are just headings of what the Instructor is discussing. You will need to take notes to understand the material. Reading the slides and not coming to class or not taking notes will not adequately prepare you for the exams. If you have questions about the exams please see the Instructor in his/her office hours.

Referencing Standard

In written work presented in this class, the accepted method for referencing the work of others will be in APA format. Please see <https://apastyle.apa.org> or https://owl.purdue.edu/owl/research_and_citation/apa_style/apa_formatting_and_style_guide/general_format.html

Resources and Writing support

Writing skills are not exclusive to English courses and, in fact, should cross all disciplines. The university supports the belief that throughout their university careers students should be taught how to write well, so that when they graduate their writing abilities will be far above the minimal standards required at entrance. Consistent with this belief, students are expected to do a substantial amount of writing in their university courses and, where appropriate, faculty members can and should consider quality of writing as a factor in the evaluation of student work. Please note writing support resources provided by the Student Success Centre <https://ucalgary.ca/ssc/resources/writing-support> and the library <https://libguides.ucalgary.ca/guides/>

University of Calgary Academic Integrity Policy
