2. **Prerequisites:**

See section [3.5.C](#) in the Faculty of Science section of the online Calendar.

Geology 201, and 202 or 203; Chemistry 201 or 211; Chemistry 203 or 213; Mathematics 249 or 251 or 265 or 275 or 281 or Applied Mathematics 217.

3. **Grading:**

The University policy on grading and related matters is described in [F.1](#) and [F.2](#) of the online University Calendar. In determining the overall grade in the course the following weights will be used:

<b>Component(s)</b>	<b>Weighting %</b>
Lecture Exam 1	25%
Lecture Exam 2	25%
Lecture Exam 3	25%
Group Project	20%
Top Hat Participation (see note below)	5%

Each of the above components will be given a letter grade using the official university grading system. The final grade will be calculated using the grade point equivalents weighted by the percentages given above and then converted to a final letter grade using the official university grade point equivalents.

-The Top Hat classroom response grade of 5% is based on participation only. Note that students do not need to be present for every question - a score of about 80% corresponds to a full mark. If you wish to opt-out of the Top Hat grade, the corresponding 5% will be added to the weight of your lecture final exam.

-To opt-out of Top Hat, students must inform the instructor (A. Dutchak) in writing (via email) by Friday, January 19th.
