2. Prerequisites: Geology 401 or 601; and Geology 403 or 503. See section 3.5.C in the Faculty of Science section of the online Calendar (<u>www.ucalgary.ca/pubs/calendar/current/sc-3-5.html</u>)

**3. Grading:** The University policy on grading and related matters is described sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course the following weights will be used:

Assignments & Labs (8; Prob Set 3 worth double)	30%
Project	15%
Midterm test	20% (Feb 15, 2018)
Final Examination (Registrar-scheduled)	35%

All lecture exams are mostly short answer type questions including numerical calculations from the lab. Note that all the materials covered in the labs are fair game for the lecture exams. **Students need to successfully complete** (obtain >50%) all components (lab, lecture, and exam) to get a passing grade.

Each piece of work (laboratory report, exam) submitted by the student will be assigned a percentage score. The student's average percentage score for the various components listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade, bearing in mind that an F grade will result if the student does not pass the Final Examination. The conversion between course percentage and letter grade is given below.

Minimum	
Percentage	Grade
95	A+
85	А
82	A-
78	B+
75	В
72	B-
68	C+
65	С
60	C-

55	D+
50	D
<50	F
