Each piece of work (reports, assignments, quizzes, midterm exam(s) or final examination) submitted by the student will be assigned a grade. The student's grade for each component listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade.

The conversion between a percentage grade and letter grade is as follows.

| | A+ | A | A- | B+ | B | B- | C+ | C | C- | D+ | D |
|---------------------------|------|------|------|-----|-----|------|------|-----|-----|------|------|
| Minimum % Required | 97 % | 93 % | 90 % | 87% | 83% | 80 % | 77 % | 73% | 70% | 67 % | 65 % |

In each of the above grading components, an assessment will be made producing a percentage grade earned. The final grade in the course is determined to be the weighted-average of the individualistic grade components listed above. The final percentage

will then be converted to a final letter grade using the conversion scale listed on this course information sheet.

The University of Calgary offers a [flexible grade option](#), Credit Granted (CG) to support student's breadth of learning and student wellness. Faculty units may have additional requirements or restrictions for the use of the CG grade at the faculty, degree or program level.
