2. Grading: The University policy on grading and related matters is described sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course the following weights will be used:

Assignments (5)	25%	
Midterm test (in class)	30%	(Monday, October 23d)
Final Examination	45%	(To be scheduled by the Registrar)

A passing grade in the final exam (45%) is essential if the student is to pass the course as a whole (grade of C- or better).

Each piece of work (assignment, laboratory report, midterm test or final examination submitted by the student will be assigned a percentage score. The student's average percentage score for the various components listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade. The conversion between course percentage and letter grade is given below.

Letter Grade Conversions	
Letter Grade	% range
