Wednesday 11:00 — 11:50

Or by appointment.

Text: Elementary Linear Algebra, Second Edition, MacGraw-Hill

Author: W. Keith Nicholson

There are five Lab tests, in the Lab room at the beginning of the Lab. The best four of the five count. Every Lab test counts for six points. $4 \times 6 = 24$. The dates of the Lab tests can be found on the web under the Lab section.

The midterm test counts for 26 points and will be on Friday, November 5, in class.

The final counts for 50 points.
