COURSE OUTLINE

1. **Course:** MATH 249, Introductory Calculus - Fall 2021

   Lecture 01: MTWF 08:00 - 08:50 in ENC 70
   - Instructor: Dr Jerrod Smith
   - Email: jerrod.smith@ucalgary.ca
   - Phone: 403 220-6766
   - Office: VIA ZOOM
   - Hours: T 9:15 - 10:15 and W 13:00 - 14:00, or by appointment (Online via Zoom).

   Lecture 02: MWRF 16:00 - 16:50 in ENC 70
   - Instructor: Dr Xiaotian Dai
   - Email: xiaotian.dai@ucalgary.ca
   - Phone: TBA
   - Office: VIA ZOOM
   - Hours: T 13:45 - 15:00 and R 13:45 - 15:00 MT, or by appointment (Via ZOOM)

   Lecture 03: M 15:00 - 15:50 in ENG 60 and TR 15:30 - 16:45 in SB 103
   - Instructor: Claudia Mahler
   - Email: claudia.mahler@ucalgary.ca
   - Phone: 403 220-7717
   - Office: VIA ZOOM
   - Hours: M 16:30 - 17:30, W 9:00 - 9:50 or by appointment. Online (via Zoom).

   Lecture 04: MTRF 17:00 - 17:50 in SB 103
   - Instructor: Dr Xiaotian Dai
   - Email: xiaotian.dai@ucalgary.ca
   - Phone: TBA
   - Office: VIA ZOOM
   - Hours: T 13:45 - 15:00 and R 13:45 - 15:00 MT, or by appointment (Via ZOOM)

**Coordinator(s)**
- Name: Dr Jerrod Smith
- Email: jerrod.smith@ucalgary.ca
- Phone: 403 220-6766
- Office: VIA ZOOM
- Hours: T 9:15 - 10:15 and W 13:00 - 14:00, or by appointment (Online via Zoom).

In Person Delivery Details:
- **Classes** (lectures) are in-person.
- **Exams** (midterms and final) are in-person.
- **Labs** are online and asynchronous.

Supplementary online content (videos)
The supplementary content videos posted to D2L cover fundamental concepts and only basic examples. While these videos are not a replacement for attending classes, we encourage you to make use of them to reinforce key ideas.

If you are not feeling well, or you have any symptoms of respiratory illness, we do encourage you to stay home and watch the content videos for the topics you miss in class. Once you are well, you can visit the Math Help Centre, and talk to your instructor, for additional support.

**Note:** To succeed in this course, students must engage with the “Dino Problem” worksheets posted on D2L (these are test-level questions). Occasionally, Lab Tasks will be based on these problems, and some problems will be discussed in class. Solutions will be provided one week (typically) after the worksheet is posted to provide sufficient opportunity to engage with the problems.

Re-Entry Protocol for Labs and Classrooms:
To limit the spread of COVID-19 on campus, the University of Calgary has implemented safety measures to ensure the campus is a safe and welcoming space for students, faculty and staff. The most current safety information for campus can be found [here](#). **Online Delivery Details:**

This course does not follow a scheduled meeting pattern.

**Labs are online and asynchronous**

Labs will consist of weekly online exercises that we call "Lab Tasks”. Lab Tasks will be due at 11:59 PM on Fridays, and students can miss up to two Lab Tasks throughout the semester (the lowest two Lab Task grades will
be dropped).

Lab Tasks may consist of an online Quiz, completing a Discussion Board post, and/or other online activities. Information about specific tasks will be posted to D2L on a weekly basis.

Course Site:

D2L: MATH 249 - ALL - (Fall 2021) - Introductory Calculus

Note: Students must use their U of C account for all course correspondence.

Email policy

All questions of a personal nature (e.g. accommodations, missed assessments) should be directed to your course coordinator (jerrod.smith@ucalgary.ca). You can usually expect a response within 24 hours (except on weekends and holidays).

Questions about math

Questions about mathematics are best answered during Class, Office Hours, or at the Math Help Centre (MS 457).

- See D2L for Math Help Centre (MS 457) information and a schedule.

Frequently Asked Questions (FAQ)

Questions about the course organization should be posted to the Frequently Asked Questions (FAQ) discussion board on D2L.

Course Outcomes:

- use the language and notion of differential calculus, and apply the key concepts to compute derivatives of functions of a real variable.
- explore the relationship between key calculus concepts and their geometric representation, and seek to apply calculus techniques to a wide variety of practical problems
- recognize that not only the technology can be used to achieve some desired results; but also it has limitations.
- Mathematical Literacy This includes the fluent reading, manipulation, and graphic interpretation of algebraic expressions and functions
- The concept of Limit Students will gain an intuition of the concept of limit, and acquire a basic level of mathematical literacy on limits and their computations
- The concept of Derivative Students will be to associate the concept of differentiation with rates of change, and they will be able to compute and manipulate derivatives
- Applications of Derivatives Students will be able to analyze the shape of functions through their derivatives. Students will use derivatives to solve a variety of applied problems, including optimization problems.
- The Riemann Integral Students will explore the process of estimating areas under a curve, develop the notion of integral, and compute basic integrals. Students will be able to demonstrate the fundamental relations between the processes of integration and differentiation.

2. Requisites:

See section 3.5.C in the Faculty of Science section of the online Calendar.

Prerequisite(s):
Mathematics 30-1 or Mathematics 2 (offered by Continuing Education).

Antirequisite(s):
Not open to students with 50 per cent or higher in Mathematics 31 or a grade of “C” or higher in Mathematics 3 offered through University of Calgary Continuing Education, except with special departmental permission. Credit for Mathematics 249 and either 265 or 275 will not be allowed.

3. Grading:

The University policy on grading and related matters is described in F.1 and F.2 of the online University Calendar.
In determining the overall grade in the course the following weights will be used:

<table>
<thead>
<tr>
<th>Component(s)</th>
<th>Weighting %</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>WeBWork Assignments (5; online homework)</td>
<td>15</td>
<td>Tuesdays: Sept. 28, Oct. 12, 26, Nov. 16 and Thursday, Dec. 9 (due at 11:59 PM)</td>
</tr>
<tr>
<td>Lab Tasks (best 8 out of 10)</td>
<td>20</td>
<td>Fridays: Sept. 24, Oct. 1, 8, 15, 22, 29, Nov. 5, 19, 26, and Dec. 3 (due at 11:59 PM)</td>
</tr>
<tr>
<td>Midterm Exam #1</td>
<td>20</td>
<td>Friday, October 15, 6:00 PM - 8:00 PM</td>
</tr>
<tr>
<td>Midterm Exam #2</td>
<td>20</td>
<td>Friday, November 19, 6:00 PM - 8:00 PM</td>
</tr>
<tr>
<td>Final Exam</td>
<td>25</td>
<td>Scheduled by the Registrar</td>
</tr>
</tbody>
</table>

Each piece of work (reports, assignments, quizzes, midterm exam(s) or final examination) submitted by the student will be assigned a grade. The student's grade for each component listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade.

The conversion between a percentage grade and letter grade is as follows.

<table>
<thead>
<tr>
<th>Minimum % Required</th>
<th>A+</th>
<th>A</th>
<th>A-</th>
<th>B+</th>
<th>B</th>
<th>B-</th>
<th>C+</th>
<th>C</th>
<th>C-</th>
<th>D+</th>
<th>D</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>95 %</td>
<td>90 %</td>
<td>85 %</td>
<td>80 %</td>
<td>76 %</td>
<td>72 %</td>
<td>68 %</td>
<td>64 %</td>
<td>60 %</td>
<td>55 %</td>
<td>50 %</td>
</tr>
</tbody>
</table>

This course will have a final exam that will be scheduled by the Registrar. The Final Examination Schedule will be published by the Registrar’s Office approximately one month after the start of the term. The final exam for this course will be designed to be completed within 2 hours.

**Students must attempt the Final Exam in order to earn a grade of "C-" or higher in MATH 249.**

The University of Calgary offers a flexible grade option, Credit Granted (CG) to support student’s breadth of learning and student wellness. Faculty units may have additional requirements or restrictions for the use of the CG grade at the faculty, degree or program level. To see the full list of Faculty of Science courses where CG is not eligible, please visit the following website: https://science.ucalgary.ca/current-students/undergraduate/program-advising/flexible-grading-option-cg-grade

4. **Missed Components Of Term Work:**

The university has suspended the requirement for students to provide evidence for absences. Please do not attend medical clinics for medical notes or Commissioners for Oaths for statutory declarations.

In the event that a student legitimately fails to submit any online assessment on time (e.g. due to illness etc...), please contact the course coordinator, or the course instructor if this course does not have a coordinator to arrange for a re-adjustment of a submission date. Absences not reported within 48 hours will not be accommodated. If an excused absence is approved, one possible arrangement is that the percentage weight of the legitimately missed assignment could also be pro-rated among the components of the course. This option is at the discretion of the coordinator and may not be a viable option based on the design of this course.

**If you miss a WeBWork Assignment deadline...**

- No extensions will be granted barring exceptional circumstances (see below: (*)).
- It is your responsibility to keep up with the WeBWork Assignment deadlines.
- Do not leave your WeBWork to the last day -- complete it early!
- (*) If exceptional circumstances (e.g., extended illness, emergency, etc.) arise: contact your coordinator by email within 48 hours of the assignment deadline. Accommodations in exceptional circumstances will be made on a case-by-case basis.

**If you miss a Lab Task ...**

- That is okay! You can miss up to two (2) lab tasks throughout the semester.
- The two lowest Lab Task grades will be dropped, so if you miss up to (2) Lab Tasks then these are the scores that we will drop.
- (**) If exceptional circumstances (e.g., extended illness, emergency, etc.) arise and you have missed three (3) Lab Tasks as a result: contact your coordinator by email within 48 hours of the assignment deadline. Accommodations in exceptional circumstances will be made on a case-by-case basis.

**If you miss a Midterm Exam ...**

2021-09-08
• There are no make-up exams barring exceptional circumstances (see below: (***)).
• (***) In exceptional circumstances (e.g., extended illness, emergency, etc.): contact your coordinator by email within 48 hours of the assignment deadline. Accommodations in exceptional circumstances will be made on a case-by-case basis.

5. Scheduled Out-of-Class Activities:

The following out of class activities are scheduled for this course.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Location</th>
<th>Date and Time</th>
<th>Duration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Midterm - 1</td>
<td>On-Campus, room to be announced</td>
<td>Friday, October 15, 2021 at 6:00 pm</td>
<td>2 Hours</td>
</tr>
<tr>
<td>Midterm - 2</td>
<td>On-Campus, room to be announced</td>
<td>Friday, November 19, 2021 at 6:00 pm</td>
<td>2 Hours</td>
</tr>
</tbody>
</table>

REGULARLY SCHEDULED CLASSES HAVE PRECEDENCE OVER ANY OUT-OF-CLASS-TIME-ACTIVITY. If you have a conflict with the out-of-class-time-activity, please contact your course coordinator/instructor no later than 14 days prior to the date of the out-of-class activity so that alternative arrangements may be made.

6. Course Materials:

Recommended Textbook(s):

Gilbert Strang, Edwin Herman, et al., *Calculus Volume 1*: OpenStax (open access eBook); Available at: https://openstax.org/books/calculus-volume-1/.

In order to successfully engage in their learning experiences at the University of Calgary, students taking online, remote and blended courses are required to have reliable access to the following technology:

• A computer with a supported operating system, as well as the latest security, and malware updates;
• A current and updated web browser;
• Webcam/Camera (built-in or external);
• Microphone and speaker (built-in or external), or headset with microphone;
• Current antivirus and/or firewall software enabled;
• Stable internet connection.

For more information please refer to the UofC ELearning online website.
7. Examination Policy:

Academic integrity is the foundation of the development and acquisition of knowledge and is based on values of honesty, trust, responsibility, and respect. We expect members of our community to act with integrity. Research integrity, ethics, and principles of conduct are key to academic integrity. Members of our campus community are required to abide by our institutional code of conduct and promote academic integrity in upholding the University of Calgary’s reputation of excellence.

Academic Integrity is important to all members of the University of Calgary community!

See section 12 (d) below for more information.

Midterm and Final Exams

No aids are allowed on tests or examinations.

All exams will be completed individually (on your own, and without help from your peers).

There are no electronic devices of any kind permitted in the examination rooms for the midterms and the final examination. This includes, but is not limited to, calculators, phones, smart watches, tablets, laptops, headphones and any bluetooth-enabled device. Failure to comply with this regulation will result in the rejection of the examination paper.

WeBWork Homework and Lab Tasks

Here are our expectations for how you should approach Academic Integrity on WeBWork Assignments and Lab Tasks.

In particular, we want to make very clear when aids (notes, videos, internet resources etc.) are allowed and when they are not!

WeBWork Homework Expectations

- WeBWork is intended to help you practice fundamental (basic) computational and theoretical problems
- You should discuss WeBWork Assignments with your peers
  - Use the WeBWork Homework Discussion Boards
- You may NOT use: homework answer services, like Chegg.com, Slader, etc.
- We recommend that you do NOT use: (online) computer algebra systems like Wolfram Alpha, Mathematica, etc.; the point is to assess your skills, and NOT to assess Wolfram Alpha (etc.).

Weekly Lab Task Expectations

Lab Tasks are intended to help you assess your understanding of fundamental concepts and basic examples.

- You should complete Lab Tasks on your own, and without help from your peers.**
  - ** Sometimes you may be asked to work together with your peers on part of a Lab Task (e.g., giving peer-feedback)
- You may re-watch the topic videos as you complete the Lab Task
- You may refer to the notes you've taken, course slides, or the course textbook
- You may NOT use: homework answer services, like Chegg.com, Slader, etc.
- We recommend that you do NOT use: (online) computer algebra systems like Wolfram Alpha, Mathematica, etc.; the point is to assess your understanding, and NOT to assess Wolfram Alpha (etc.).

Students should also read the Calendar, Section G, on Examinations.

8. Approved Mandatory And Optional Course Supplemental Fees:

There are no mandatory or optional course supplemental fees for this course.

9. Writing Across The Curriculum Statement:

For all components of the course, in any written work, the quality of the student's writing (language, spelling, grammar, presentation etc.) can be a factor in the evaluation of the work. See also Section E.2 of the University Calendar.
10. **Human Studies Statement:**

   Students will not participate as subjects or researchers in human studies.

   See also Section E.5 of the University Calendar.

11. **Reappraisal Of Grades:**

   A student wishing a reappraisal, should first attempt to review the graded work with the Course coordinator/instructor or department offering the course. Students with sufficient academic grounds may request a reappraisal. **Non-academic grounds are not relevant for grade reappraisals.** Students should be aware that the grade being reappraised may be raised, lowered or remain the same. See Section I.3 of the University Calendar.

   a. **Term Work:** The student should present their rationale as effectively and as fully as possible to the Course coordinator/instructor within **ten business days** of either being notified about the mark, or of the item’s return to the class. If the student is not satisfied with the outcome, the student shall submit the Reappraisal of Graded Term work form to the department in which the course is offered within 2 business days of receiving the decision from the instructor. The Department will arrange for a reappraisal of the work within the next ten business days. The reappraisal will only be considered if the student provides a detailed rationale that outlines where and for what reason an error is suspected. See sections I.1 and I.2 of the University Calendar.

   b. **Final Exam:** The student shall submit the request to Enrolment Services. See Section I.3 of the University Calendar.

12. **Other Important Information For Students:**

   a. **Mental Health** The University of Calgary recognizes the pivotal role that student mental health plays in physical health, social connectedness and academic success, and aspires to create a caring and supportive campus community where individuals can freely talk about mental health and receive supports when needed. We encourage you to explore the mental health resources available throughout the university community, such as counselling, self-help resources, peer support or skills-building available through the SU Wellness Centre (Room 370, MacEwan Student Centre, Mental Health Services Website) and the Campus Mental Health Strategy website (Mental Health).

   b. **SU Wellness Services:** For more information, see www.ucalgary.ca/wellnesscentre or call 403-210-9355.

   c. **Sexual Violence:** The Sexual Violence Support Advocate, Carla Bertsch, can provide confidential support and information regarding sexual violence to all members of the university community. Carla can be reached by email (svsa@ucalgary.ca) or phone at 403-220-2208. The complete University of Calgary policy on sexual violence can be viewed at [https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Sexual-and-Gender-Based-Violence-Policy.pdf](https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Sexual-and-Gender-Based-Violence-Policy.pdf)

   d. **Misconduct:** Academic integrity is the foundation of the development and acquisition of knowledge and is based on values of honesty, trust, responsibility, and respect. We expect members of our community to act with integrity. Research integrity, ethics, and principles of conduct are key to academic integrity. Members of our campus community are required to abide by our institutional **Code of Conduct** and promote academic integrity in upholding the University of Calgary’s reputation of excellence. Some examples of academic misconduct include but are not limited to: posting course material to online platforms or file sharing without the course instructor’s consent; submitting or presenting work as if it were the student’s own work; submitting or presenting work in one course which has also been submitted in another course without the instructor’s permission; borrowing experimental values from others without the instructor’s approval; falsification/fabrication of experimental values in a report. Please read the following to inform yourself more on academic integrity:

   - Student Handbook on Academic Integrity
   - Student Academic Misconduct Policy and Procedure
   - Research Integrity Policy

   Additional information is available on the [Student Success Centre Academic Integrity page](https://www.ucalgary.ca/student-success-centre/academic-integrity).

   e. **Academic Accommodation Policy:**

   It is the student’s responsibility to request academic accommodations according to the University policies and procedures listed below. The student accommodation policy can be found at: [https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Student-Accommodation-Policy.pdf](https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Student-Accommodation-Policy.pdf)

   Students needing an accommodation because of a disability or medical condition should communicate this need to Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities: [https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Accommodation-Policy.pdf](https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Accommodation-Policy.pdf)
Students needing an accommodation in relation to their coursework or to fulfil requirements for a graduate degree, based on a Protected Ground other than Disability, should communicate this need, by filling out the Request for Academic Accommodation Form and sending it to Mark Bauer by email bauerm@ucalgary.ca preferably 10 business days before the due date of an assessment or scheduled absence.

f. **Freedom of Information and Privacy:** This course is conducted in accordance with the Freedom of Information and Protection of Privacy Act (FOIPP). Students should identify themselves on all written work by placing their name on the front page and their ID number on each subsequent page. For more information, see Legal Services website.

g. **Student Union Information:** VP Academic, Phone: 403-220-3911 Email: suvpaca@ucalgary.ca. SU Faculty Rep., Phone: 403-220-3913 Email: sciencerep@su.ucalgary.ca. Student Ombudsman, Email: ombuds@ucalgary.ca.

h. **Surveys:** At the University of Calgary, feedback through the Universal Student Ratings of Instruction (USRI) survey and the Faculty of Science Teaching Feedback form provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses. Your responses make a difference - please participate in these surveys.

i. **Copyright of Course Materials:** All course materials (including those posted on the course D2L site, a course website, or used in any teaching activity such as (but not limited to) examinations, quizzes, assignments, laboratory manuals, lecture slides or lecture materials and other course notes) are protected by law. These materials are for the sole use of students registered in this course and must not be redistributed. Sharing these materials with anyone else would be a breach of the terms and conditions governing student access to D2L, as well as a violation of the copyright in these materials, and may be pursued as a case of student academic or non-academic misconduct, in addition to any other remedies available at law.
