

## All you need to know about: Final Exam Math 253/lec 06

**When?** *Wednesday April 18, 2007; 3:30pm-5:30pm*: Please show up around 3:15pm.

**Where?** *Red Gym*

**What?** 12 multiple choice questions (50 minutes: each 2 marks) followed by 5 long answer questions (70 minutes: each 6 marks).

**How?** Be prepared “*at least*” by reviewing the weekly worksheets, the examples of your lecture notes and the webwork assignments. *The exam will cover the entire course material with more emphasis on the second half of the course.*

### Important Notes:

- *The exam is absolutely “closed book/notes” and calculators are NOT allowed*: All the formulas that may be needed and are hard to memorize will be given.
- The scantron answer sheets along with the multiple choice questions will be given to you at the beginning of the exam. Booklets including long answer questions will be put underneath your seats after 30 minutes. The scantrons will be collected after “*50 minutes*” and then you may start the long answer part. If you finish the multiple choice part in less than 50 minutes, you may start the long answer part immediately.

**Good Luck**
