

**THE UNIVERSITY OF CALGARY**  
**FACULTY OF SCIENCE**  
 Department of Mathematics and Statistics  
**COURSE INFORMATION SHEET**

1. **Course: Math 253/263 - Calculus II/Enriched Calculus II** **Winter 2008**

<u>Lecture</u>	<u>Days</u>	<u>Time</u>	<u>Location</u>	<u>Instructor</u>	<u>Office</u>
L01	MWF	9:00	ST 141	C. Rios	MS 546
		email: crios@math.ucalgary.ca			
B01	M	13:00	MS 371	D. Glin	
B02	M	13:00	MS 325	T. Rapke	
B03	T	9:00	MS 371	C. Rios	
B04	T	9:00	MS 325	R. Stratford	
Math 263	T	11:00	MS 319	J. Ling	MS 532
		email: ling@math.ucalgary.ca			

2. **Prerequisite(s): Math 249 or 251 or Amat 217** Corequisite: **None**

**NOTE:** The Faculty of Science policy on pre- and co-requisite checking is outlined in the current University Calendar (see [www.ucalgary.ca/pubs/calendar](http://www.ucalgary.ca/pubs/calendar)), *Faculty of Science, Section 5C*. **It is the student's responsibility to ensure that they have the pre- and/or co-requisites for the course, and if they do not they will be withdrawn from the course without further notice.**

3. **Fee Policy:** After the last day to drop/add courses, there will be no refund of tuition fees if a student withdraws from a course, courses or the session.

4. **Academic Accomodations:** It is the student's responsibility to request academic accomodations. A student with a documented disability who may require academic accomodation must register with the Disability Resource Centre to be eligible for formal academic accomodation. DRC registered students are required to discuss their needs with the instructor no later than fourteen (14) days after the start of this course.

5. **The University policy on grading and related matters** is described in the current University Calendar, *Academic Standings*. In determining the overall grade in the course, the following weights will be used:

<b>Webwork Homework (10)</b>	<b>10%</b>
<b>Mid-term Test (50 mins.)</b>	<b>25%</b>
<b>Quizzes (5)</b>	<b>15%</b>
<b>Final Exam</b>	<b>50%</b>

There will be a final examination scheduled by the Registrar's Office. Students must obtain at least a grade "D" on the final examination in order to obtain an overall final grade of D or better.

6. **Missed Components of Term Work.** The regulations of the Faculty of Science pertaining to this matter are outlined in the current University Calendar, *Faculty of Science, Section 6A*. It is the student's responsibility to familiarize herself/himself with these regulations.

7. **Academic misconduct** (cheating, plagiarism, or any other form) is a very serious offence that will be dealt with rigorously in all cases. A single offence may lead to disciplinary probation or suspension or expulsion. The Faculty of Science follows a zero tolerance policy regarding dishonesty. Please read the sections of the current University Calendar. See: <http://www.ucalgary.ca/honesty/>
8. There will be one mid-term in-class examination.
9. **Text:** either *Calculus: a Complete Course* or *Calculus: Single Variable* 6th edition. by R. A. Adams, Addison-Wesley.
10. **Calculators:** The use of calculators during quizzes, the midterm test, or final examination is **not** permitted.
11. **Homework & Quizzes:** Homework problems will be assigned (approximately) weekly. These are to be completed using the computer homework system WEBWORK which can be accessed at <http://webwork.ucalgary.ca>. Each student will have an account and the assignments can be done from any computer with web access. Your answers to the assignment questions will be checked and marked (by the computer) on a right/wrong basis. We will give more details about the system and how to use it during the term.

The weekly tutorials are each of 50 minute duration. If you have problems with any questions you can ask your tutorial instructor for help during this time. In addition, during five of these tutorials (roughly every other week; see the course schedule) there will be a quiz of 45 minutes duration.

These will be held in the computer room MS317, and will again use the Webwork system. They will also be *Open Book*. You can bring any textbook and/or your notes, but Calculators will not be allowed.

There is in addition the Continuous Tutorial where you can come and ask a tutor for help on a drop-in basis. This tutorial will be held in MS365, MTWR 11:00 – 15:00 and F 11:00 – 14:00.

12. There is a webpage for this course maintained in Blackboard. To login into Blackboard go to:

<https://blackboard.ucalgary.ca/webapps/login/>

and choose the link MATH 253 L01 - (Winter 2008) - Calculus II. Information about the course (including this outline!) will be posted there. Students may also refer to the webpage

[www.math.ucalgary.ca/~lpbos/math253/w08/w08.html](http://www.math.ucalgary.ca/~lpbos/math253/w08/w08.html).

for some worked examples and other material.

## SCHEDULE

WEEK NUMBER	DATE	SECTIONS OF TEXT	TEST/QUIZ
1	J 14 - J 18	3.1, 3.2, 3.3	
2	J 21 - J 25	3.5, 3.6	B01 and B03 Quiz
3	J 28 - F 01	6.1, 5.6, 6.2	B02 and B04 Quiz
4	F 04 - F 08	6.3	B01 and B03 Quiz
5	F 11 - F 15	6.6, 6.5	B02 and B04 Quiz
6	F 18 - F 22	Reading Week	
7	F 25 - F 29	5.7, 7.1	B01 and B03 Quiz
8	M 03 - M 07	7.1, 7.3	B02 and B04 Quiz
9	M 10 - M 14	4.8	MIDTERM
10	M 17 - M 21	7.9 and notes	Good Friday
11	M 24 - M 28	7.9 and notes	B01 and B03 Quiz
12	M 31 - A 04	3.7 and notes	B02 and B04 Quiz
13	A 07 - A 11	3.7 and notes	B01 and B03 Quiz
14	A 14 - A 18	Review	B02 and B04 Quiz

## NOTES:

1. The section numbers refer to the text by Adams: a Complete Course. Some departures from this schedule may take place.
2. The Midterm is scheduled for the week of March 10 to March 14. **No Calculators or other aids will be allowed.**
3. By the end of each week you should have *mastered the sections* of the text indicated on the course schedule and the corresponding assignment. You should *prepare* for each lecture by reading the text and for each tutorial by attempting to do as many exercises as possible in advance. Math is like weight-lifting – the more reps you do, the stronger you get! In addition to the assigned WEBWORK problems there are many problems in the textbook that you can try. The answers to the odd-numbered exercises are given in the back of the book, so we recommend that you try these first. Your lectures will not necessarily cover everything in detail; they should guide you in your study of the text. Similarly, your tutorial instructor should help you diagnose your difficulties and teach you how to overcome them.
