2. Grading: The University policy on grading and related matters is described in sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course, the following weights will be used:

<i>Assignments</i>	[5]	15 %
<i>Quizzes</i>	[5]	5%

<i>Final Exam</i>		50% (To be scheduled by the Registrar)

Each piece of work submitted by the student will be assigned a percentage score. The student's average percentage score for each component listed above will be converted to a letter grade for that component. Different schemes may be used for different components. The scheme for a given component will be the same throughout the term, and will be posted on Blackboard immediately after one submission of each type of component has been made by the class. The course letter grade will be a weighted grade point average of the component letter grades, using the weighting factors in the table above.

A passing grade in the Final Examination is essential for an overall grade of C- or better.
