June 21, 23, 25	10.2, 10.3	Assignment due on June 23 rd , Quiz3, June 23 rd
		Review and summary, Project due on June 25 th
June 28 - 30		Final Examinations, Scheduled by the Registrar's Office

In this course you will be introduced to a level of abstraction that you may not have met in earlier mathematics courses. Students are advised to stay abreast of the schedule and to ask questions readily. Your assignments, quizzes and examinations must be neatly and clearly presented. Writing mathematics precisely will be key to your success in this course.
