

MATHEMATICS 353 ANNOUNCEMENTS

May 2

GRADES

The grades for MATH 353 L01 and L02 have been sent in.

Students are welcome to have a look at their final exam and to discuss their grade. All final exams at the University of Calgary, however, are not returned to the student since they are later stored by the Registrar. Dr. Zvengrowski is away for a week, but will be available from May 11. Dr. Liao is also away and will return in June. Students in his lecture (L01) will be welcome to discuss their grades with Dr. Zvengrowski from May 11.
