3. **Grading:** The University policy on grading and related matters is described sections [F.1](#) and [F.2](#) of the online University Calendar. In determining the overall grade in the course the following weights will be used:

Assignments (Webwork)	20% (including an assignment or project using a computer algebra system)
Midterm test	30% (Nov 5, 2015 – date to be confirmed by scheduling)
Final Examination	50% (To be scheduled by the Registrar)

A passing grade in the final exam is essential if the student is to pass the course as a whole.

Each piece of work (assignment, laboratory report, midterm test or final examination) submitted by the student will be assigned a percentage score. The student's average percentage score for the various components listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade [bearing in mind that an F grade will result if the student does not pass the final examination]. The conversion between course percentage and letter grade is given below:

Letter Grade	% range
A+	>97
A	92–96.5
A-	87–91.5
B+	82–86.5
B	78–81.5
B-	74–77.5
C+	70–73.5
C	66–69.5
C-	62–65.5
D+	59–61.5
D	55–58.5
F	<55
