2. Grading: The University policy on grading and related matters is described in sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course, the following weights will be used:

 Assignments
 [4]
 20 %

 Midterm Test
 [2]
 40 % (see #5.)

Final Exam 40 % (To be scheduled by the Registrar)

Students in Mathematics 423 will have additional problems in tests and assignments.

Each piece of work submitted by the student will be assigned a percentage score. The average percentage score for each item of a term component will be combined with its course component weighting listed above to form a weighted average which is to be the final score in the course. This final score, a percentage out of 100, will then be converted to a letter grade using the following conversion table:

≥ 85%	A ±
≥ 70%	В±
≥ 55%	C ±
≥ 50%	D±
< 50%	F

As noted in the Calendar, this conversion table could be adjusted, but only if the grades of the students will not be lowered.

A passing grade in the Final Examination is essential for an overall grade of C- or better.
