Monday 09:00 — 09:50. 13:00 — 13:50

Wednesday 11:00 — 11:50

Or by appointment.

Text: Set Theory; London Mathematical Society; Student Texts **48**

Author: András Hajnal and Peter Hamburger

There are five Lab tests, in the Lab room at the beginning of the Lab. The best four of the five count. Every Lab test counts for six points. $4 \times 6 = 24$.

The dates of the Lab tests are:

23/09/2004; 07/10/2004; 28/10/2004; 18/11/2004; 02/12/2004

The midterm test counts for 26 points and will be on Friday, November 5, in class.

The final counts for 50 points.
