Grades: All items in the course will be graded out of 100%. Weighting for the final letter grade is Assignments 50% (best 5 of 6), Midterm 20%, Final Examination 30%. One of the assignments will be a lecture to the class.

Textbook: Topology, J. R. Munkres, 2nd Edition

email: Students are also welcome to ask for further information, for help, or any other questions, via email. For email communication it is required that your name appear, also emails with 3 or more errors in spelling/grammar will not be answered (3 strikes and you're out!). Emails should be addressed to "Dear Professor Zvengrowski."

Website : www.math.ucalgary.ca   go to Course Listings, then to PMAT 505, L 01, and Bookmark. Weekly assignments, Announcements, Info sheets, old exams, etc. will be posted here. Blackboard will not be used.

Assignments: You are welcome to discuss assignments with your fellow students as well as with your instructor (but no-one else). The final version you submit must be written yourself. It should be turned in on a university exam booklet, or printed out from a LaTeX file. If using an examination booklet use only the right hand pages of the booklet. Questions should be done in the same order as on the assignment, and in ink (or printed). A (small) portion of the grade will be based on the presentation.

Examinations: The midterm and final examinations will be similar to assignments, except that there will be a shorter time period and no discussion is allowed, they should be done entirely on your own (the text and notes are permitted).
