2. Prerequisites: Pure Mathematics 30 or equivalent

NOTE: The Faculty of Science policy on pre- and co-requisite checking is outlined in the current University Calendar (see www.ucalgary.ca/pubs/calendar) *Faculty of Science, section 5C*. **It is the students' responsibility to ensure that they have the pre- and co-requisites for the course, and if they do not they will be withdrawn from the course without notice.**

3. Fee policy. After the last day to drop/add courses, there will be no refund of tuition fees if a student withdraws from a course, courses or the session.

4. Academic Accommodations: It is the student's responsibility to request academic accommodations. A student with a documented disability who may require academic accommodation must register with the Disability Resource Centre to be eligible for formal academic accommodation. DRC registered students are required to discuss their needs with the instructor no later than fourteen (14) days after the start of this course.

5. The University policy on grading and related matters is described in the current University Calendar, *Academic Standings*. In determining the overall grade in the course, the following weights will be used:

Quizzes – best 3 of 4	25%
Mid-term exam	25%
Final Exam	50%

A passing grade on any particular component of the course is essential to passing the course as a whole. There will be a final examination scheduled by the Registrar's Office. Exams and quizzes will be closed book. Calculators are permitted for arithmetic calculations. Tables will be provided.

6. Missed Components of Term Work. The regulations of the Faculty of Science pertaining to this matter are outlined in the 2006-2007 Calendar, Faculty of Science, section 6A. It is the student's responsibility to familiarize herself/himself with these regulations.

7. Academic misconduct (cheating, plagiarism, or any other form) is a very serious offence that will be dealt with rigorously in all cases. A single offence may lead to disciplinary probation or suspension or expulsion. The Faculty of Science follows a zero tolerance policy regarding dishonesty. Please read the sections of the current University Calendar. See: <http://www.ucalgary.ca/honesty/>

8. There will be no out-of-class activities.

 Chapters 8, 9, 10 (sections 1-4).

13. Attendance

It is important to attend all lectures and tutorials, as this course, like other mathematics and statistics courses, makes use of earlier material in following chapters. Do not fall behind in this class.

14. Support Materials

On non-quiz tutorials, worksheets will be handed out with problems to work on during the tutorial period. The text has solutions to exercises, except for the Review Exercises. Solutions to most of these are available for purchase from the Bound and Copied, in MacEwan Centre.

15. Office hours

Office hours are Monday and Wednesday, between 14:00 to 15:00. I will be available during office hours or you may make an appointment, if you prefer, or just drop by my office.

16. Nature of the Course

There are some mathematical aspects to this course, but the emphasis will not be on proofs and memorization of formulas. Rather, the emphasis will be on understanding concepts and real life applications, the models that underlie statistical inference and thinking about statistical issues. Examples show how statistics has been used to help solve problems in many fields.
