Assignment #3

Wednesday, Feb 25 — Here is a short set of
problems (re "discrete distributions" and "binomial
distribution" in particular) for you to work out
as you prepare for the midterm exam on Friday, Feb 27:

6.2 , also find the mean of X

6.3
6.4 , also find the standard deviation of the prob. distr.
6.6
6.36, 6.38

6.49 - also find the variance of X

6.68, 6.69, 6.72

I will post solutions to this assignment
tomorrow (Thursday)
