Exams (90%)

- There will be three in-class M.C. exams.
- Each exam weights 30%.
- Exams in this course are closed book. The use of resources, including class notes, the textbook, and online resources, is prohibited during the exams in this course. Students may not communicate with others about course material or the exam either in person or electronically during exams.

Top Hat MC-Questions Participation (8%)

- There will be one open-book quiz on Top Hat preceding each exam. The questions (in a Word document) will be posted on D2L a few days before the exam. Students will answer these questions in class (see "Tentative Lecture Schedule" for dates and times) and see the answers right after. These quizzes are graded based on participation only (8% of course total).

- The instructor will ask open-ended discussion questions on Top Hat during lectures. Participation is voluntary and optional. Answers to and participation in these open-ended questions are not graded.

Course Credits for Research Participation (2%)

Experiential-Learning/Research-Evaluation Course Component

This experiential-learning/research-evaluation component provides enriched learning opportunities in this introductory course. You can complete this component by participating in research studies (Option 1: Research Participation), by evaluating a research talk from a suite of options (Option 2: Research Evaluations), or by a combination of the two options. Thus, you will learn more about psychology by taking part in research studies and/or by evaluating a research talk from a psychological perspective.

Option 1: Research Participation. Students can complete this course component by creating an RPS account and participating in Departmentally approved research studies at <http://ucalgary.sona-systems.com>. Students earn 0.5% (0.5 credits) for each full 30 minutes of participation. Each study will be followed by an educational debriefing experience. The demand for timeslots may exceed the supply in the term. Thus, students are not guaranteed that there will be enough studies available to them to meet their credit requirements. Students should seek studies early in the term and should frequently check for open timeslots. **The last day to participate in research and allocate credits is Wednesday, Dec 6, 2023.**

Option 2: Research Evaluations. Students can complete this course component by completing a Qualtrics survey in which they watch and answer questions about a research talk. Students earn 0.5% (0.5 credits) for each acceptable evaluation. Students can submit only two evaluations per course per due date **October 14 and November 25**; late submissions will not be accepted. Please consult the D2L for this course for more information about this option.

Option 3: Combinations of Options 1 and 2. Students can complete this course component through any combination of Options 1 and 2 (e.g., 1% through Option 1 and 1% through Option 2, or vice versa). Given that each research talk evaluation counts for 0.5%, students who complete, for example, 1% through Option 1 would need to complete two research evaluations to successfully complete all 2% of this course component. As mentioned under Option 2, students can only submit two research evaluations per due date per course and late submissions will not be accepted. Thus, students who opt to combine Options 1 and 2 must plan carefully.

Once approved by the course instructor, and at their discretion, alternative arrangements for missed assessments may be considered <https://www.ucalgary.ca/pubs/calendar/current/g-1-2.html>. Students may be asked for documentation <https://www.ucalgary.ca/pubs/calendar/current/m-1.html>.

Department of Psychology Criteria for Letter Grades

Psychology course instructors use the following criteria when assigning letter grades:

A+ grade: *Exceptional Performance.* An A+ grade indicates near perfect performance on multiple choice and short answer exams. For research papers/essays/course projects/presentations, an A+ grade is awarded for exceptional work deserving of special recognition and is therefore not a common grade.

A, A- Range: *Excellent Performance.* Superior understanding of course material. Written work is very strong in terms of critical and original thinking, content, organization, and the expression of ideas, and demonstrates student's thorough knowledge of subject matter.

B Range: *Good Performance.* Above average understanding of course material. Written work shows evidence of critical thinking and attention to organization and editing but could be improved in form and/or content.

C Range: *Satisfactory Performance.* Adequate understanding of course material. Knowledge of basic concepts and terminology is demonstrated. Written work is satisfactory and meets essential requirements but could be improved significantly in form and content. Note: All prerequisites for courses offered by the Faculty of Arts must be met with a minimum grade of C-.

D range: *Marginally meets standards.* Minimal understanding of subject matter. Written work is marginally acceptable and meets basic requirements but requires substantial improvements in form and content. Student has not mastered course material at a level sufficient for advancement into more senior courses in the same or related subjects.

F grade: *Course standards not met.* Inadequate understanding of subject matter. Written work does not meet basic requirements. Student has not demonstrated knowledge of course material at a level sufficient for course credit.

Grading Scale

A+	96-100%	B+	80-84%	C+	67-71%	D+	54-58%
A	90-95%	B	76-79%	C	63-66%	D	50-53%
A-	85-89%	B-	72-75%	C-	59-62%	F	0-49%

It is at the instructor's discretion to round off either upward or downward to determine a final grade when the average of term work and final examinations is between two letter grades.

To determine final letter grades, final percentage grades will be rounded up or down to the nearest whole percentage (e.g., 89.5% will be rounded up to 90% = A but 89.4% will be rounded down to 89% = A-).
