Course description

This course provides a general introduction to the study of basic psychological processes. At the end of the course, you will be able to evaluate psychological information in accordance with the scientific method and will have introductory-level knowledge of:

- The diverse sub-fields of psychology, such as Developmental and Social Psychology, Intelligence, Motivation, Emotion, Personality, Stress, as well as Psychological Disorders and their Treatment.
- Understanding current psychological theories focusing on basic processes
- Basic concepts and terminology used in different areas of psychology

Lectures are intended to highlight and extend, rather than summarize, assigned text readings. You will benefit most from the posted lecture notes if you read the assigned book chapters *prior* to the corresponding lecture. Class PowerPoints as well as accompanying audio and/or video files will be made available on the course D2L site. The Power Points are provided to assist you in organizing and understanding the material and are not a substitute for the full lectures.

Course Format

This is an in-person class held on campus.

Prerequisites

There are no prerequisites to this course.

Required Text: Nancy Ogden, Michael Boyes, Evelyn Field, Ronald Comer, Elizabeth Gould (2021): **Psychology Around Us, Fourth Canadian Edition**, Wiley Canada, Toronto.

Available at the University of Calgary Bookstore.

Electronic copies are also available via the UofC Bookstore, or at the publisher's website:

Course Learning Outcomes

The Department of Psychology is committed to student knowledge and skill development. The table below lists the key learning outcomes for this course, the program-learning outcomes they facilitate (see <https://live-arts.ucalgary.ca/psychology/about#program-learning-outcomes>), and the expected level of achievement.

Course Learning Outcomes	Assessment Methods	PLO(s)	Level(s)
Differentiate between the diverse sub-fields of Psychology	MC Exams	1,2,7	I
Define the terminology used in different areas of Psychology	MC Exams	1,2,5,7	I
Define psychology as a biological and social science, and Define/Apply the key theories and research methods in Psychology	MC Exams	1,2,5	I
Critically Think about psychological issues	MC Exams	1,2,6	I
Apply course knowledge to real world information/data	MC Exams	1,2,5,7	I, C

Notes. PLOs = Program-Learning Outcomes: 1 = demonstrate knowledge of psychological sciences, 2 = think critically and solve problems, 3 = conduct research and analyze data, 4 = communicate effectively, 5 = demonstrate information literacy, 6 = understand and implement ethical principles, 7 = apply psychological knowledge and skills, 8 = demonstrate multicultural competence and awareness of issues related to equity, diversity and inclusion. Level of PLO achievement facilitated by this course: I = introductory, C = competency, A = advanced.

Acknowledgments and Respect for Diversity

Our classrooms view diversity of identity as a strength and resource. Your experiences and different perspectives are encouraged and add to a rich learning environment that fosters critical thought through respectful discussion and inclusion. The Department of Psychology would also like to acknowledge the traditional territories of the people of the Treaty 7 region in southern Alberta. The City of Calgary is also home to Métis Nation of Alberta, Region III.

Desire2Learn for PSYC 201

There is an area on the general campus Desire 2Learn site set aside for this course.

THIS SITE SHOULD BE YOUR FIRST STOP FOR QUESTIONS ABOUT COURSE TOPICS, DATES, ETC.

Assessment Methods

Three on-line mid-term exams (**Jan 31 [Ch. 4, 11], Feb 28 [Ch. 10, 12], Mar 23 [Ch. 13, 14]**) and a final exam (date set by the Registrar: **Apr 19-29 [Ch. 15, 16]**) are scheduled. You will be allowed to start a mid-term exam any time within the scheduled 24-hour period, and from that point in time onwards you will have **75 minutes** to complete it. If you experience an issue during the writing of any of the exams, which can include (but are not limited to) issues with technology, caregiving responsibilities, or

distractions within a students' test-taking environment, please email me immediately so that I can arrange an alternate time for you to write the exam. I will try to regularly check my email throughout most of the day in case that you need help to deal with unexpected problems during the quiz. All are web-based, non-cumulative multiple-choice exams based on **both** textbook and lecture material (including films and other demonstrations). Not all exam material will be covered in class, and some exam material covered in the lectures will not be covered in the text, so paying attention to the (published) lectures is important for success in this course. Note that you are responsible for **all** assigned readings from the text even if the specific content has not been covered in lectures. Many exam questions will involve critical thinking, a skill you will be given practice developing in class, so again it's to your advantage to pay attention to the lectures.

Exams in this course are **open book**. For this course, an open book exam means that the use of class notes, the textbook and calculators is permitted.

The use of online resources is not permitted. Students may not communicate with others about course material or the exam either in person or electronically during exams.

Your **course grade** will be computed as **the average of your four exam scores (converted to a score of 96/100) PLUS your Experiential Learning score (4%) (see section below)**. In other words, **each exam is worth 24%** of your final mark: the "missing" 4 points can be earned via the Experiential-Learning/Article-Evaluation program (see below).

Course Credits for Research Participation

Experiential Learning / Article +Evaluation Course Component (4% of final grade)

This experiential-learning/article-evaluation component provides enriched learning opportunities in this introductory course. You can complete this component by participating in research studies (Option 1: Research Participation), by completing 1-page article evaluations from a designated list (Option 2: Article Evaluations), or by a combination of the two options. Thus, you will learn more about psychology by taking part in research studies and/or by reading and evaluating articles from a psychological perspective.

Option 1: Research Participation. Students can complete this course component by creating an account and participating in Departmentally approved research studies at <https://ucalgary.sona-systems.com>. Students earn **0.5% (0.5 credits) for each full 30 minutes of participation**. Each study will be followed by an educational debriefing experience. The demand for timeslots may exceed the supply in a given term. Thus, students are not guaranteed that there will be enough studies available to them to meet their credit requirements. Students should seek studies early in the term and should frequently check for open timeslots. **The last day to participate in research and allocate credits is Thursday, April 12, 2022 (i.e., you must have this finalized before 11:59 pm on that day).**

Option 2: Article Evaluations. Students can complete this course component by reading and evaluating articles. Students earn 1% (1 credit) for each acceptable evaluation. Students can submit only one evaluation per due date (**January 21, February 11, March 4, March 25, 2022**). Again, closing time for each day is **11:59 pm; late submissions will not be accepted**. Please consult the D2L for this course for more information about this option.

Option 3: Combinations of Options 1 and 2. Students can complete this course component through any combination of Options 1 and 2 (e.g., 3% through Option 1 and 1% through Option 2, or vice versa). Given that each article evaluation counts for 1%, students who complete, for example, 2.5% through Option 1 would need to complete two evaluations to successfully complete all 4% of this course component. As mentioned under Option 2, students can only submit one article evaluation per due date, late submissions will not be accepted. Thus, students who opt to combine Options 1 and 2 must plan ahead carefully.

Department of Psychology Criteria for Letter Grades

Psychology professors use the following criteria when assigning letter grades:

A+ grade: Exceptional Performance. An A+ grade indicates near perfect performance on multiple choice and short answer exams. For research papers/essays/course projects/presentations, an A+ grade is awarded for exceptional work deserving of special recognition and is therefore not a common grade.

A, A- Range: Excellent Performance. Superior understanding of course material. Written work is very strong in terms of critical and original thinking, content, organization, and the expression of ideas, and demonstrates student’s thorough knowledge of subject matter.

B Range: Good Performance. Above average understanding of course material. Written work shows evidence of critical thinking and attention to organization and editing but could be improved in form and/or content.

C Range: Satisfactory Performance. Adequate understanding of course material. Knowledge of basic concepts and terminology is demonstrated. Written work is satisfactory and meets essential requirements but could be improved significantly in form and content. Note: All prerequisites for courses offered by the Faculty of Arts must be met with a minimum grade of C-.

D range: Marginally meets standards. Minimal understanding of subject matter. Written work is marginally acceptable and meets basic requirements but requires substantial improvements in form and content. Student has not mastered course material at a level sufficient for advancement into more senior courses in the same or related subjects.

F grade: Course standards not met. Inadequate understanding of subject matter. Written work does not meet basic requirements. Student has not demonstrated knowledge of course material at a level sufficient for course credit.

Grading Scale

A+	96-100%	B+	80-84%	C+	67-71%	D+	54-58%
A	90-95%	B	76-79%	C	63-66%	D	50-53%
A-	85-89%	B-	72-75%	C-	59-62%	F	0-49%

As stated in the University Calendar, it is at the instructor’s discretion to round off either upward or downward to determine a final grade when the average of term work and final examinations is between two letter grades. To determine final letter grades, **final** percentage grades will be rounded up to the

nearest whole percentage (e.g., 89.50 % will be rounded up to 90% = A, but 89.49 % will be rounded down to 89% = A-).

This is a useful document with all sorts of tips about how to prepare for exams more effectively!

Supporting Documentation

Students may be asked to provide supporting documentation for an exemption/special request. This may include, but is not limited to, a prolonged absence from a course where participation is required, a missed course assessment, a deferred examination, or an appeal. Students are encouraged to submit documentation that will support their situation. Supporting documentation may be dependent on the reason noted in their personal statement/explanation provided to explain their situation. This could be medical certificate/documentation, references, police reports, invitation letter, or a statutory declaration, etc. The decision to provide supporting documentation that best suits the situation is at the discretion of the student. Students cannot be required to provide specific supporting documentation, such as a medical note.

Students can make a Statutory Declaration as their supporting documentation (available at ucalgary.ca/registrar). This requires students to make a declaration in the presence of a Commissioner for Oaths. It demonstrates the importance of honest and accurate information provided and is a legally binding declaration. Several registered Commissioners for Oaths are available to students at no charge, on campus, please see ucalgary.ca/registrar.

Falsification of any supporting documentation will be taken very seriously and may result in disciplinary action through the Academic Discipline regulations or the Student Non-Academic Misconduct policy.

Absence from a Test/Exam

Makeup tests/exams are **NOT** an option without the approval of the instructor. Students who miss a test/exam have up to **48 hours** to contact the instructor to ask for a makeup test/exam. It's the instructor's discretion if they will allow a make-up exam. **Students who do not schedule a makeup test/exam with the instructor within this 48-hour period forfeit the right to a makeup test/exam.** At the instructor's discretion, a makeup test/exam may differ significantly (in form and/or content) from a regularly scheduled test/exam. Once approved by the instructor a makeup test/exam must be written within 2 weeks of the missed test/exam on a day/time scheduled by the instructor. If a student cannot write their Final Exam on the date assigned by the Registrar's Office, they need to apply for a deferred exam <https://www.ucalgary.ca/registrar/exams/deferred-exams>.

Travel During Exams

Consistent with University regulations, students are expected to be available to write scheduled exams at any time during the official December and April examination periods. Requests to write a make-up exam because of conflicting travel plans (e.g., flight bookings) will NOT be considered by the department. Students are advised to wait until the final examination schedule is posted before making

any travel arrangements. **If a student cannot write their final exam on the date assigned by the Registrar's Office, they need to apply for a deferred exam:**

<https://www.ucalgary.ca/registrar/exams/deferred-exams>.

Students with an exceptional extenuating circumstance (e.g., a family emergency) should contact the Department of Psychology (psyugrd@ucalgary.ca).

Academic Accommodations

Students seeking an accommodation based on disability or medical concerns should contact Student Accessibility Services; SAS will process the request and issue letters of accommodation to instructors. For additional information on support services and accommodations for students with disabilities, visit www.ucalgary.ca/access/. Students who require an accommodation in relation to their coursework based on a protected ground other than disability should communicate this need in writing to their Instructor. The full policy on Student Accommodations is available at

University of Calgary Academic Integrity Policy

Academic integrity is the foundation of the development and acquisition of knowledge and is based on values of honesty, trust, responsibility, and respect. We expect members of our community to act with integrity.

Research integrity, ethics, and principles of conduct are key to academic integrity. Members of our campus community are required to abide by our institutional code of conduct and promote academic integrity in upholding the University of Calgary's reputation of excellence. It is your responsibility to ensure that you have read and are familiar with the student academic misconduct policy:

<https://www.ucalgary.ca/policies/files/policies/student-academic-misconduct-policy.pdf>.

Academic Misconduct

For information on academic misconduct and its consequences, please see the University of Calgary Calendar at <https://www.ucalgary.ca/pubs/calendar/current/k.html>

Instructor Intellectual Property

Course materials created by professor(s) (including course outlines, presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the professor(s). These materials may NOT be reproduced, redistributed or copied without the explicit consent of the professor. The posting of course materials to third party websites such as note-sharing sites without permission is prohibited. Sharing of extracts of these course materials with other students enrolled in the course at the same time may be allowed under fair dealing.

Copyright Legislation

All students are required to read the University of Calgary policy on Acceptable Use of Material Protected by Copyright (www.ucalgary.ca/policies/files/policies/acceptable-use-of-material-protected-by-copyright.pdf) and requirements of the copyright act (<https://laws-lois.justice.gc.ca/eng/acts/C-42/index.html>) to ensure they are aware of the consequences of unauthorized sharing of course materials (including instructor notes, electronic versions of textbooks etc.). Students who use material protected by copyright in violation of this policy may be disciplined under the Non-Academic Misconduct Policy.

Freedom OF Information and Protection of Privacy

Student information will be collected in accordance with typical (or usual) classroom practice. Students' assignments will be accessible only by the authorized course faculty. Private information related to the individual student is treated with the utmost regard by the faculty at the University of Calgary

Student Support and Resources
